U.S. Jets Attempt To Free Khe Sanh Base

DA NANG, Vietnam - History's most concentrated aerial bombing campaign is underway around the U.S. Marine base at Khe Sanh in an effort to break the Communist siege ring, a qualified U.S. Air Force source said

Although large numbers of North Vietnamese troops and supply and ammunition dumps have been presumably destroyed, Communist pressure on the base 14 miles

south of the demilitarized zone builds steadily.

Some Marine officers believe that without the mighty bombing campaign, Khe Sanh already would be untenable. Only 5,000 Marines face a force of perhaps 20,000

North Vietnamese regulars.

In the past month, Air Force, Navy and Marine fighter-bombers have flown more than 7,000 sorties against the Communist positions around Khe Sanh. More than 85 B52 missions of up to nine planes each have

rained bombs into the surrounding mountains.

Meanwhile, U.S. Marine jets poured rockets, napalm and tear gas yesterday against North Vietnamese troops holed up in Hue's walled Citadel in another phase of the American' air campaign.

Unarmed Navy Plane Shot Down By Chinese

WASHINGTON - Red Chinese MIG aircraft attacked two unarmed American planes which strayed near Communist Hainan Island Tuesday night. One was shot down, the other fled to Da Nang, South Vietnam.

The Pentagon, announcing this yesterday, said the two U.S. Navy propeller-driven Al Skyraiders inadvertently strayed into Hainan's airspace because of

Peking Radio, in a broadcast monitored in Tokyo charged the United States with carrying out "war pro-

"Navy pilots of the People's Liberation Army immediately dealt a heavy blow and shot down one of them and damaged the other," Peking said.

At the Pentagon, Asst. Secretary of Defense Phil G. Goulding said he did not know whether the second plane which escaped had been damaged or whether its pilot was injured.

Golding said this pilot "reports he last saw the other plane in a vertical dive and smoking."

The Pentagon's chief spokesman made a point of saying two or three times he would not discuss the fate of the lost man. Some took this as a suggestion that search-and-rescue operations might be under way off Hainan's coast.

The Nation

Bethlehem Steel To Acquire Mining Company

WILMINGTON, Del. — Bethlehem Steel Co. will acquire Cerro Corp., a mining firm, in a stock transfer valued at \$285 million under plans approved by share-

holders of both companies yesterday.

Bethlehem stockholders, meeting here, approved a change in their charter authorizing a new issue of 20 million shares of a new class of stock and the exchange of 7.1 million of the new share for Cerro stock.

Cerro shareholders met in New York.
For each share of Cerro, stockholders will receive
one share of Bethlehem's new \$2.80 series A convertible preferred stock.

The new stock, paying \$2.80 in dividends a year, may be converted any time to 1.33 shares of Bethlehem common. Bethlehem common closed yesterday at 30. At yesterday's meeting Edmund F. Martin, Bethlehem's chairman and chief executive officer, said the Internal Revenue Service already has approved the tax aspects of the proposed purchase.

He said the Justice Department is now studying

the proposed acquisition.

Johnson Asks \$2 Billion for Riot Prevention

MIAMI BEACH, Fla. — President Johnson, in a move to meet the threat of rioting in the nation's cities, will ask Congress for \$2 billion to clear slums and build low-income housing, an informed AFL-CIO labor source said

"It's going to be a terrific housing message," said one source. Johnson will probably send the housing message to Congress next week, or by the end of the month at the Johnson will ask Congress for \$1 billion to expand

the now largely experimental model cities program into large-scale rebuilding of big city slums, the source said.

The President will propose another \$1 billion to immediately expand construction of low-income units from about 50,000 a year now to 250,000.

The presidents of 18 AFL-CIO building trades unions Tuesday pledged their help in solving labor problems stemming from the proposed federal housing program. They also promised to work actively with civil rights groups to recruit Negro youths into their 8.500 union locals across the nation.

This was a sharp turnabout for the building trades, which for years have been the target of racial discrimination complaints.

The State

ConCon Restricts Tax Concessions

HARRISBURG — The Constitutional Convention, in a surprise move, voted last night to revamp a proposal that would have permitted special tax breaks for private industrial and commercial development projects.

Delegates approved, 123-4, an amended version of the plan restricting tax concessions to industrial development

projects sponsored by nonprofit corporations. The convention had approved Herman Buck's original proposal on Monday, over the objections of several dele-

gates that it would benefit private speculators. In other developments, the convention rejected 15 proposed amendments to a lengthy proposal of the Local

Government Committee.

Earlier, delegates had approved an amendment requiring the establishment of the appointive office of pub-

lic defender in all Pennsylvania counties.

The proposal, introduced by House Minority Whip K. Leroy Irvis (D-Allegheny) an ex-officio delegate, was adopted on a 75-60 vote. The adoption followed rejection of a proposed amendment that would have made public defenders elected, constitutional officers.

The local government proposal was the sixth of seven committee packages the convention had to consider be-fore it completes its work of revising four key sections of the state's 94-year-old charter.

Greek College Bowl Continues Tonight

By MARGE COHEN

Collegian Staff Writer

The third round of preliminary competition for the Greek Week College Bowl will begin at 6:45 tonight in 215 Hetzel Union Building.

Teams participating in tonight's eliminations will be Delta Theta Sigma and Tau Epsilon Phi vs. Kappa Kappa Gamma and Phi Sigma Sigma, and Delta Gamma and Alpha Sigma Alpha vs. Phi Gamma Delta and Phi Sigma Kappa.

Also, Tau Kappa Epsilon and Acacia will face Alpha Xi Delta and Phi Mu, and Kappa Delta and Delta Delta Delta will go against Triangle and Sigma Alpha Mu.

College Bowl Co-Chairmen Julie Conover and Lew Hirsch expressed their satisfaction with the matches held for the last two nights. They said that the competitions "went very smoothly."

These preliminary eliminations will produce the teams for the semi-finals to be held next Monday. The 4-member teams, consisting of representatives

tions ranging from science to liberal arts to trivia

Questions for the matches

IFC Still Looking For Replacement

A replacement for Godfrey Cambridge for Sunday's "Greek Week--'68" Concert is yet to be found.
Interfraternity Council Con-

cert Chairman Fred Kirschner said last night that he is still waiting for replies from six comedians who were asked to fill the vacancy left by Cambridge. Cambridge cancelled his ap-

pearance through an "act of God" clause in his contract with the IFC and the Panhellenic Council, sponsors of pitalized in Mt. Sinai Hospital in New York City for

The Young Rascals, billed with Cambridge for the concert will appear even if another comedian cannot be signed, Kirschner said.

from two sororities and two were compiled by the General fraternities, are competing in Electric College Bowl of na-30-minute matches, facing questional television. The trivia, however, is the innovation of the Greek Week College Bowl Committee. Judging of the answers is being done by professors from various departments of the University.

The finals for the College Bowl will be held Friday, Feb. 23rd, when plaques will be awarded to the winning team and to the first and second runners-up.

Winners of the competition held Tuesday night were Kappa Delta and Delta Delta, Triangle and Sigma Alpha Mu, Phi Delta Theta and Sigma Chi, Acacia and Tay Kappa Epsilon, Alpha Xi Delta and Phi Mu defeating Alpha Phi Delta and Alpha Kappa Lambda, and Delta Zeta and Zeta Tau Alph defeating Theta Delta Chi and Treta Psi.

The winning teams from last night's matches were Lambda Chi Alpha and Sigma Phi; Kappa Sigma and Chi Lambda officer for the State Depart-Phi; Zeta Beta Tau and Phi Sigma Delta.

Hass at the Jawbone

Professor Accuses Greeks Of 'De Facto Discrimination

By BARBARA BLOM

Collegian Staff Writer

A University professor of sociology last night accused Penn State's Greek system of operating in blatant contradiction of the goals of the University, such as better citizenship and brotherhood."

John W. Haas, speaking at the Jawbone Coffee House, 415 E. Foster Ave., 5 id that fraternities and sororities take part in what ke called "de facto discrimination.'

Haas charged the Administration and the Greeks with "hiding their heads in the sand" and refusing to face the issue. He said that while fraternities and sororities "serve a useful function, especially in the setting of this University, they establish arbitrary criteria for membership which just shouldn't be, especially in an academic environment. These

"Sociologists have found that one tends .o attribute generalized characteristics to those in groups outside of one's own," Haas stated. "Prejudice, therefore, is an outgrowth of the fraternity system.

"In light of the radical changes taking place "ight now in our society, the fraternity system as it is organized here is anachronistic.' He said that while the prob-

lems resulting from racial seg-regation are being tackled in the country, the University is the last place where the issue should be ignored. Haas challenged fraternities and sororities to change their "discriminatory practices." He

then appealed to the Administration to exert "further pressure than it has to date.' According to Melvyn S. Klein, assistant to the dean of criteria band 'likes' together in men, there is no "de jure" disway that tends to encourage crimination in Penn State's sys-

Klein pointed out that the Faculty Senate on Jan. 9, 1962, approved the following policy regarding the removal of restrictive membership clauses from the charters of fraternities, sororities, and other social organizations:

"After June 30, 1965, any social organization which has restrictive clauses still unremoved shall be required to become inactive until the restric-tive qualifications for mem-bership are eliminated." In response to a equest from

the Office of Student Affairs, the national offices for all fraternities here sent a statement that they do not discriminate on the basis of race, religion, or national origin Klein indicated that while

discrimination is not part of the fraternity system at Penn State, at least as regards fraternity constitutions, the social nature of a fraternity tends to encourage the "perpetuation of a particular self-image among its members."

Vietnam Peace Distant, Thant Says After Talks

PARIS (P) — U.N. Secretary-General and the Soviet Union. He suddenly canceled U Thant conferred yesterday with a North Vietnamese diplomat and came away content the night in London. vinced that peace in Vietnam is as far away as ever, informed sources reported.

After a 75-minute meeting with Mai Van Bo, head of the North Vietnamese delegation in Paris, Thant was said to believe the positions of North Vietnam and the United States were too far apart to hope for any early peace conference.

Later, Thant saw President Charles de Gaulle, a critic of U.S. policy in Vietnam. Both agreed that negotiations on Vietnam "are not for tomorrow," the sources said.

Politics Too Complex

Thant was said to feel the political situation in Vietnam was too complex to be settled by negotiations with the United States, even with a South Vietnamese representative at the American side. Bo reportedly insisted on the importance of the National Liberation Front, the political arm of the Viet Cong, whose role in eventual negotiations has been challenged by the Saigon government.

It was also emphasized during Thant's talks that Red Chinese influence in Hanoi, the North Vietnamese capital, was discouraging whatever sentiment there was in North Vietnam for negotiation, the sources said.

Thant was to have returned to New York from London Tuesday night after a peace mission that also took him to India

Nguyen Van Sao, a North Vietnamese newsman, told other reporters in London that at Thant's request he helped to set

up the session with Bo in Paris. Ask Terms for Peace

Sao said the meeting primarily was to permit Thant to receive answers to questions he submitted to the North Vietnamese regime last week through North Vietnam's consul general in New Delhi, These questions were said to relate to Hanoi's terms for a peace conference.

After his talk with Thant, Bo quickly contacted his government, sources said

In London, British authorities said they were disenchanted with Thant's views dis-closed in talks he held Tuesday with Prime Minister Harold Wilson and Foreign Secretary George Brown. They reported Wilson and Brown disagreed with Thant's approach.

Thant is taking the view that if the bombing of North Vietnam halts he is satisfied that peace talks will follow within three or four weeks.

Wilson and Brown backed the formula President Johnson set up in a speech in San Antonio—an offer for a bombing halt if Hanoi would agree to prompt talks and would refrain from building up its military power in South Vietnam. North Vietnam has dismissed the proposal.

USG To Vote on Revision Act

By DENNIS STIMELING Collegian Staff Writer

The controversial Constitution Investigation Commit-

tee Act of 1968 will be ready for a vote at the Undergraduate Student Government meeting tonight. The purpose of this act is to establish a congressional committee to investigate the current constitution of USG. The committee would examine the structure, function and powers of the executive, legislative and judicial branches of USG and would recommend any necessary changes.

The committee, composed of six area congressmen and six ex-officio officers, would be headed by USG Vice President Jon Fox. Recommendations and suggestions by the committee would be presented at next week's congres-

The proposal, submitted by Terry Klasky, Harvey Reeder and Dave Vinikoor, has been praised by President Jeff Long as "long overdue." Several USG members, including the bill's sponsors and Long, expressed the hope that this bill will result in the elimination of several ex-officio officers and their replacement by area representatives. 'Revision Necessity'

Reeder indicated that the committee would seek the

help of faculty members, student leaders and administra-

tion officials in making recommendations to USG. He added

that "constitutional revision is a necessity to change the

current outdated structure of USG."

In other action, USG will discuss a bill which would provide financial aid to students who are charged with civil crimes and cannot pay the bail for their release.

The bill leaves establishment of guidelines for the pro-

gram to the Legal Awareness Committee. Jon Fox, one of the bill's co-authors, said that if the bill is passed "funds will be allocated from the USG treasury for students in-volved in civil cases where bail has been set and the student is unable to pay. Too long USG has ignored this type of case. Hopefully they will now take action."

Long commented, "This bill will test the sentiment of

the Congress on this idea. It is a very good idea."

Voter Age Resolution

The third major bill up for consideration at tonight's meeting calls for a resolution proposing a change in Pennsylvania's voting age.

The bill's co-sponsors, Long and Faith Tanney, Associa-

tion of Women Students president, called upon USG to recommend to Governor Shafer and other state leaders that the voting age be lowered to 18 from the present 21. The bill cites several reasons for supporting such a resolution. It is claimed that 64% of the American people feel the voting age should be lowered to 18. In four states the legal age is under 21, raising a question of voter

equality in the remaining 46 states.

Many men between 18 and 21 are currently serving in the armed forces. The bill asserts that if a man is old enough to fight and die for his country, he is old enough to help select the leaders of that country.

'May Happen Soon'

Long called this "an extremely important issue. It (lowering the voting age) is going to happen in this state very soon. It may even happen in the United States Con-

If adopted, the resolution will be sent to President Johnson, Shafer, Senators Scott and Clark, all Pennsylvania representatives in Congress, and all state legislators. In addition, letters would be sent to all colleges and universities in the state urging them to adopt a similar Other legislation for tonight includes a bill extending the terms of USG officers to the ninth week of spring term

rather than the current expiration date of the fifth week. Another bill would establish the mechanism to enable USG to send delegates to various conferences and seminars deemed helpful to the student body or student government. On other matters, Long announced that Ellena Cletti

will be installed tonight as the new congressman from North Halls. Also, James K. Kefford will be named as head of a committe to lead USG's fight against the proposed \$100 toxtion hike.

Grad Deferments

Today's guest editorial is from The Daily Illini. We feel it is especially pertinent.

The Johnson Administration's delay in deciding criteria for deferring graduate students next year is beginning to reach crisis proportions in many of the universities throughout the nation. The situation is so uncertain now that graduate school administrators can't predict who will be able to enroll next year, or how big the class will be.

A report issued before Christmas indicated that the President would like to grant across-the-board deferments to students in mathematics, engineering and sciences. The humanities, therefore, would be left to hunt for available people to fill the open slots in their departments. But the President was expected to act on the matter shortly after Christmas, and now that it is a full month later, the problem is becoming even more acute.

Because there has been no decision on the deferments, graduate schools, and graduate applicants have no idea what to expect. There has been some talk that all graduating seniors and first-year grad students will be put in a 1-A pool this summer, and with draft calls increasing sharply during coming months, it appears that many students may be inducted.

Thus, the problem is two-fold. If seniors apply for graduate school now, the graduate schools and the students themselves cannot be certain of attend-

ance in the fall. The result could be that graduate schools would fill their quotas this spring, only to lose a sizeable proportion of entering students to the draft during the summer.

But if students do not apply for graduate schools (deadlines, especially for fellowships and assistantships, are either nearing or have passed at many schools), thinking they might be drafted, they run the risk of missing out on grad school in the fall, if some broad deferments are granted.

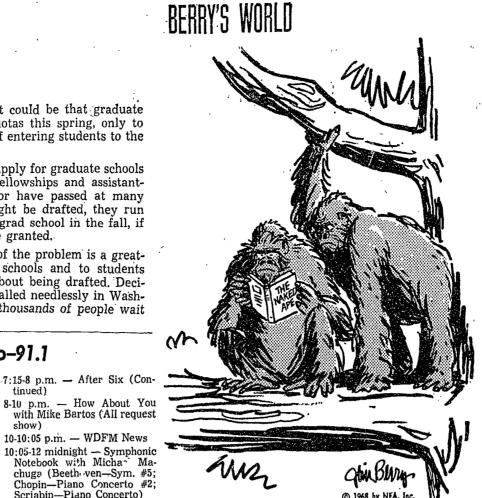

Thus, the uncertainty of the problem is a greater detriment to graduate schools and to students than aimless speculation about being drafted. Decision-making seems to be stalled needlessly in Washington while hundreds of thousands of people wait anxiously for the results.

Letters to the Editor

'Solely on His Merits'

TO THE EDITOR: In defense of the letter last Wednesday concerning Eric Walker's various employers, I should like to point out that the Armstrong Cork Corporation (not, incidentally, the Armstrong Cork "Company" as Mr. Greene reports from his academic seclusion) had earnings (in 1966) of \$113,265,349 (before taxes) and may be presumed to be quite able to determine where its own interest lies.

Furthermore, we must not tolerate Mr. Greene's suggestion that Eric Walker, merely on the ground that he constitutes in himself only one person, has no appreciable power in his various endeavors. Executive shake-ups in large corporations often involve only the relationships among members of a single large family. Let us remember to evaluate President Walker solely on his

> Dorion Fuchs Graduate

Book Store Revisited

TO THE EDITOR: My congratulations are extended to Steve Gerson and USG for renewing the book store

As I am sure USG is aware, there have been several investigations of the textbook question and the most recent (as far as I know) report of administrative find-

recent (as far as I know) report of administrative findings and conclusions, a paper circulated out of the president's office entitled "A University Bookstore At Penn State?", is dated March 8, 1965.

In the words of this paper, "the University believes that an on-campus bookstore could (1) help reduce somewhat the number of late and non-available texts, and (2) be an intellectual asset to the entire University family. but that it could not save the student money in purchasing books, or entirely eliminate the problem of late

The paper goes on to explain that to establish an oncampus bookstore would require financing of about \$1 million, plus approximately \$250,000 to begin operations, and thereafter continued financing for maintenance

of inventory.

Yet another reason why Penn State does not operate its own bookstore is that of public relations. The paper its own bookstore is that of public relations. The paper circulated out of the President's Office deals candidly with the problem: "The University is not an island, but an integral part of the Commonwealth. Consequently, the Board of Trustees has long been reluctant for the University to supply services that could be provided suitably by private enterprise.

This view is supported by merchants who derive their livelihood by serving the University family, and

by the spectrum of business interests that in turn derive their livelihood from serving these merchants.

The State Legislature, on which the University is dependent for funds, hears quickly when there is a threat to the established pattern, and the local interests can marshal statewide support through trade associations."

Considering the financial problems of the University. Considering the financial problems of the University and the dangers of presenting the State Legislature with a threat to the established pattern in State College, it will be some amazing wizardry indeed that lifts the curse of the students' having to absorb considerable and curse of the singenis maying unnecessary losses every term,

Charles Mocknick '69

Students 'Core' of Senate Action

TO THE EDITOR: The feature article in last Wednesday's Collegian about the University Senate was hard to overlook. It showed the Senate to be clearly involved in the issues vital to all students, whether activist or apathetic. What may have been missed, though, was the announcement on the third page that applications are open for the third page that applications are open for the days to the Senate Committees.

student membership on the Senate Committees.

Speaking from a term's experience on the Senate
Undergraduate Student Affairs Committee, these committees are the core of all Senate action. Because it only
meets once a month, the Senate must rely heavily on its committee structure to research and draft initial legislation and stay abreast of broad academic issues. This legislation ranges from "regulations affecting students" "approval of courses and programs of study" to "University calendar policy" (term system!).

Students on these committees act as representatives

of student viewpoint at the initial stages of policy formu-lation. Working in conjunction with USG (which selects the student committee members and is recognized by the Senate as speaking for the student body), they are in a position to see positive changes result from their work, such as Pass-Fail, Student Courts, and removal of dis-

ciplinary records from transcripts.

Because of the importance of these committees, the Senate, USG and the students now on the committees are Senate, USG and the students now on the committees are concerned that the right replacements be found. What makes a person "right" for these positions? He should be able to speak to students, faculty and administrators alike. He must be able to eloquently state the student viewpoint, but still be able to hear and understand the other viewpoints. And when he speaks, it should be from knowledge borne of research rather than emotion.

He should be able to divorce his position from partisan politics, aiming instead at the welfare of the entire student body and the academic community. Above all, he should care enough about the University to want to take part in planning the ongoing change of P.S.U.

Letter to the Editor

Alpha Sorority Salutes Poet
TO THE EDITOR: The members of Alpha Kappa Alpha Sorority wish to pay tribute to a great American poet in the month of his birth. Langston Hughes was born on February 1, 1902. As a high school student in Cleveland, Ohio, he wrote his first verses. After graduation he attended Columbia University. Much of his insight comes from his widespread traveling which took him throughout South America, Europe and Africa.

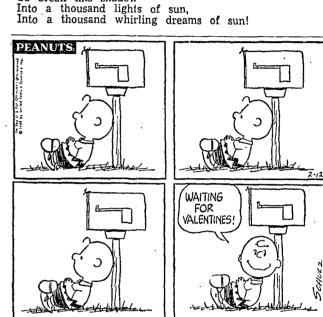

Today we hail him as a poet of the present generation who interprets the idealism, the everyday happenings, the high aspirations of the New American Negro, and finally life itself.

Catherine Stewart

As I Grew Older

It was a long time ago.
I have almost forgotten my dream. But it was there then, In front of me, Bright like a sun — my dream. And then the wall rose, Rose slowly, Between me and my dream. Rose slowly, slowly, Dimming, Hiding, The light of my dream. Rose until it touched the sky - The wall. Shadow.

I am black. I lie down in the shadow. No longer the light of my dream before me, Only the thick wall. Only the shadow. My hands!
My dark hands!
Break through the wall! Help me to shatter this darkness To smash this night, To break this shadow

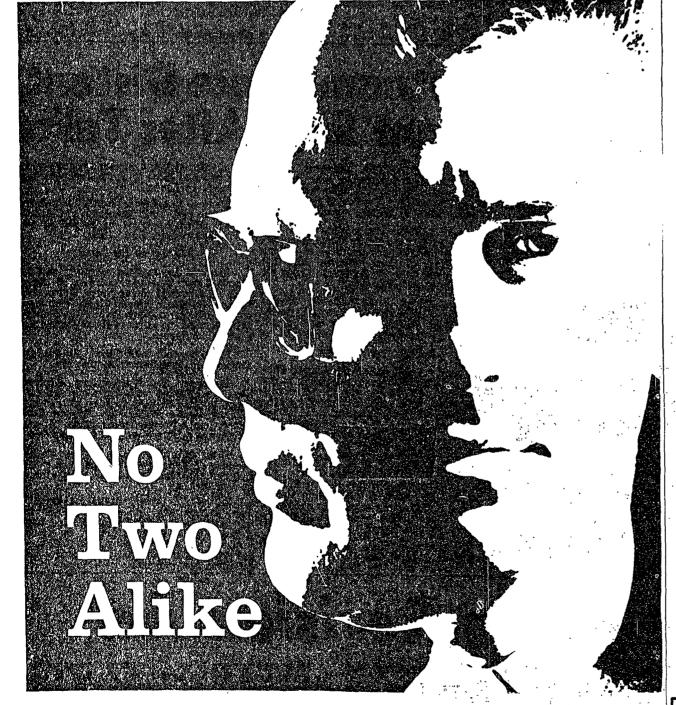

Manager, Ronald

THILDSDAY EERDILARY 15' 1968

They go to the same school, take the same course, start out in the same job -yet one becomes a whiz in research and

the other a sales manager in Buffalo. We think it's wonderful. As a matter of fact, that's exactly the way things

happen at Lukens. We don't try to put people in pigeonholes. We can't. There are no two alike. We find that good engineers often make excellent salesmen ... and that

some good salesmen do even better as

steel plant managers. Our director of purchases started with the field sales force. Our manager of market development was a design engineer. Our president...a personnel man.

This flexible shifting of people, and their infinite variety of skills, has made Lukens a \$100-million-plus corporation ... the 4th largest steel plate producer in the nation . . . the world's leading producer of specialty plate steels.

If you dislike being pigeon-holed, perhaps you'd like to consider a career with us. You can never tell where it might lead.

Coatesville, Pennsylvania An equal . apportunity

· employer.

Thursday, February 22, explore an engineering career on earth's last frontier.

Talk with Newport News On-Campus Career Consultant about engineering openings at world's largest shipbuilding company—where your future is as big as today's brand new ocean.

Our half-a-billion-dollar backlog of orders means high starting salary, career security, with your way up wide open. It also means scope for all your abilities. We're involved with nuclear ship propulsion and refueling, nuclear aircraft carrier and submarine building, marine automation. We've recently completed a vast oceanographic ore survey. We're a major builder of giant water power and heavy industrial equipment. We're starting to apply our nautical nuclear know-how to the fast expanding field of nuclear electric power generation. We're completing competitive systems designs for the Navy's \$1 billion plus LHA fleet concept.

Interested in an advanced degree or research? We're next door to Virginia Associated Research Center with one of the world's largest synchrocyclotrons, offering advanced study in high energy physics. We're close to Old Dominion College and University of Virginia Extension Division, where you can get credits for a master's degree, or take courses in Microwave Theory, Solid State Electronics, Nuclear Engineering and other advanced subjects. Ask about scholarships, tuition grants, study and research leaves to implement these opportunities.

Ask, too, about the pleasant living and lower living costs, here in the heart of Virginia's historic seaside vacation land, with superb beaches, golf, fishing, boating, hunting.

IMMEDIATE ENGINEERING CAREER OPENINGS

------ State's Government Problems Typical --

Vital Reforms Long Overdue in Pennsylvania Legislature

By PAUL LEVINE

Special to The Daily Collegian

When cocktail-party conversations turn to state legislatures, the many voices usually form a distinct patternmuch criticism but little concensus.

There are, however, some general comments about . state legislatures which apply quite well to Pennsylvania government. While not forming a unanimity of opinion. these observations are often agreed upon by many from seemingly different political persuasions.

Few observers, if any, would argue that the Pennsylvania Legislature is flawless. In fact, most assert that the foibles of the General Assembly are those found in all

Many feel that time has long since passed the Legislature by, that the legislators are living and governing in the 19th century. In his final State of the Commonwealth Message in January/ 1966, Gov. William W. Scranton called for new efforts to meet new problems.

Public Demanding Service

"Members of the Legislature must discipline themselves and their party caucuses to provide the kind of service that the public increasingly demands," Scranton

Observers of the national scene think that such problems are widespread. In "Storm Over the States," former North Carolina Gov. Terry Sanford calls state legislatures "lacking in fresh, confident leadership." State leaders must establish new character to get a new reputation, Sanford wrote.

There are others who are likewise disturbed about the condition of the nation's legislatures. In his book, "The States-United They Fell," Frank Trippet charged that public interests are not being met in state government. The legislatures, he claimed, are run by a coalition of industrial, commercial and business groups. "The true constituency of the legislature is the commercial community," Trippett said.

Thomas R. Dye, in his article, "State Legislative Politics." accuses legislatures of functioning to serve locally organized interests.

And, Gov. Scranton took the Pennsylvania Legislature to task for not keeping the welfare of the people foremost in mind.

Lobby Spending Reports

"Special interests still wield too much power, too," Scranton said. "Lobbyists perform the worthwhile and legitimate function of bringing the problems of economic groups to the attention of the legislators. But when the interests of these groups gain supremacy over the general public interest, legislators are not giving fair service to either their constituents or the Commonwealth. We need rigorous laws for the reporting of expenditures by lobbyists, the financial holdings of legislators, and executive personnel - and political campaign financing, too."

Although expressed over a year ago, Scranton's concern with legislators' ethics remains a timely subject. An ethics bill became bogged down in the last session of the Legislature and is expected to see more problems when the Legislature reconvenes. Much attention focused on the bill after last month's Susie Monroe affair.

Rep. Monroe (D-Philadelphia) has not been seen in Harrisburg since the Legislature convened in January, 1967. Yet, in the last year, she collected about \$800 in travel expenses, presumably for the twice-weekly Philadelphia to Harrisburg trip. The incident hardly raised an eyebrow on Capitol Hill where such practice is the rule rather than the exception; but the state's citizenry did awaken to the fact that there is room for moral improvement in Harrisburg.

The structure of the Legislature has also come under fire recently. The Committee for Economic Development

recommends that legislators be limited to 100 members in total. Pennsylvania has 203 members in its House and 50 in the Senate. While not as cumbersome as New Hampshire's 424-member Legislature, the General Assembly could be effectively reduced in size, according to many observers.

However, the Constitutional Convention in Harrisburg has already rejected two proposals which would have trimmed the size of the House. One amendment, which would have lowered the number of Representatives to 101, was defeated on the Convention floor by a vote of 135-14. The other amendment, calling for a House with a maximum

of 151 members, fared only slightly better, losing 103-40. The Convention's Legislative Apportionment Committee recommended maintaining House membership at 203. After the Committee's proposal is formerly presented one more time—a mere formality—the Convention will go on record as reaffirming the status quo.

Too Many Committees

CED also criticizes the committee system of most states. Committees, the group says, should be few in number and organized along broad functional lines. Thirty-five states presently have more standing committees than the U. S. Congress. With 56 committees, Pennsylvania ranks about midway along the scale which ranges from Nebraska's mere 14 to Mississippi's 101 standing committees.

Some critics of the state scene feel that there is more wrong with the committee system than just the numbers. Rep. Gerald Kaufman (D-Allegheny) recently charged that the checks and balance system of the Legislature is ineffective because Republicans in control of committees are serving as extensions of Gov. Shafer's executive branch of the government.

Before stepping down last year, Gov. Scranton had additional criticism for the Legislature. He advocated a

(CED), a national group of businessmen and educators, change in "the traditional mode of operation" of the Legislature.

> "The practice of coming to Harrisburg for a day or two at the beginning of the week, calling frequent recesses, stretching out the session, and finally, acting on most important matters in a frantic rush in the last few days before adjournment simply does not make for orderly and responsible government today," Scranton said. "The best practice would be to buckle down at the beginning of the session, meet regularly, conduct business and then adjourn. The legislator's work, however, should not be finished with the end of the session."

No Time Limit

The Pennsylvania Legislature holds annual sessions (budget sessions are held every other year) with no time limits. Because most of the legislators hold other jobs as. well, the Legislature usually meets only two or three days

CED favors full-time legislators working in annual sessions with no time limits except for revenue and appropriations measures.

Another concern of the CED is the salary level of state legislators. The committee wants the minimum salary to be \$15,000 in the smaller states and \$25,000 in states of Pennsylvania's size. Pennsylvania legislators currently receive \$12,000 annually - \$7,200 basic salary and \$4,800 for expenses.

One supporter of the pay-raise is Rep. Ronald G. Lench (D-Beaver) who also advocates reducing the size of the legislature.

Legislators' pay should be raised, Lench said. "If this were done, you wouldn't have people trying to run the state government and practicing law or selling insurance at the same time. But it is difficult for a man to take this work seriously when he has a family to support back

publisher's survey of what's new in the way

"Movies are better than ever."

When Hollywood coined that promotional phrase some years ago, television was just coming into its own, movie audiences had dwindled, and films themselves seemed sillier than ever. The slogan, regarded in some quarters. as wishful thinking, occasioned no little merriment. But nowadays, nobody's laughing.

For while the theatre is declared moribund (again), and television is not regarded as worthy of consideration, movies are better than ever. At least, more people than ever before go to them, talk about them and take them seriously. Public interest extends to all kinds of movies — underground, overground, homemade, foreign, new wave, old ripple, The Sound of Music, and Blow-Up. It has been said of everyone, from Shakespeare to Brecht: "If he were working today, he'd be working in movies.'

On the theory that, Marshall McLuhan notwithstanding, people who enjoy seeing and talking about movies would also enjoy reading and knowing more about them, an international publishing venture called Cinema World has been launched. The plan is for a series of definitive, lively, copiously-illustrated, jargon-free critical studies of individual directors and actors, discussions of national cinemas and kinds of movies, and explanations of the movie-making process. The first three volumes in the series, published in paperback at \$2.95 each (and in hard covers at \$4.95) are:

Jean-Luc Godard, by Richard Roud. A study of the connecting themes and ideas in the work of the controversial French director whose Breathless led the "new

Losey on Losey, edited and introduced by Tom Milne. The American director comments on his own work, from The Boy with Green Hair to The Servant and

Luchino Visconti, by Geoffrey Nowell-Smith. An analysis of the director whose products extend from the neo-realism of Rocco and His Brothers to the rocco of

Other books to be published in the series this year include Robin Wood on Howard Hawks, John Ward on Alain Resnais, and The New Wave, edited by Peter Graham. Always, we hope Cinema World will fill the gap between the heavy technical tomes and the fantasy of movie fan magazines. The latter, incidentally, are responsible for a satire called Mmmm . . . It's Juicy which appears, along with hundreds of other pieces, in Max Shulman's Guided Tour of Campus Humor (\$4.95, hardbound). This is a king-size collection of the best stories, articles, jokes, poems, and nonsense compiled from 65 college humor magazines over half a century. If this hilarious book proves anything, it's that college humor is as funny as ever.

The books reviewed above are published by the sponsors of this column, Doubleday Anchor Books, 277 Park Avenue, New York City, and Doubleday & Company, Inc., Garden City, New York, You'll find them at one of the best equipped booksellers in the country — your own college store.

FROM 18 SEMI-FINALISTS these six valentines were chosen as finalists last night for the title of 1968 Mil Ball Queen. They are, left to right, Lee Smith, Donna Jean Deeter, Amy McDonald, Bea Pallman, Mary Thornton and Ann Herd.

Faced Final Selection Committee

Six Mil Ball Queen Finalists Named

In the spirit of Valentine's Day, six coeds were named finalists last night in the 1968 Military Ball Queen competition.

The finalists, selected by vote of the cadets and midshipmen, are evenly distributed between the services. Army finalists are Donna Jean Deeter (10thfine arts-Pittsburgh) and Mary Evelyn Thornton (5th - elementary education Pittsburgh). Navy is represented by Ann Herd (5th-education-Bangor) and Bea Pallman (5th-home economics education-Altoona) Air Force candidates are Amy McDonald (2nd-liberal arts-Bethel Park) and Lee Smith (4th-education-Pennington, N.J.).

These finalists last night faced the final selection board, consisting of Donald H. Ford, Dean of the College of Human Development, Laurence H. Lattman, Professor of Geomorphology, Joseph Paterno, Head Football Coach, and their wives. The Queen and runner-up will be announced at the Military Ball Saturday night in the Hetzel Union Building ballroom.

The other semifinalists were Mary E. Gebler (5th-journalism-Perkiomenville), Kay Regan (8th-elementary and kindergarten education - Yardley), Susan Roland (5th-science-Bethel Park), Irene Zielinski (5th-secondary education-Cranford, N.J.), Diane Hoffman didate from Schuylkill campus.

(8th - housing administration - Bloomsburg), Lydia Leech (5th-consumer service-Millertown), Gerry Lucent (9thsecondary education - Monongahela), Evelyn Routt (2nd-liberal arts-Media), Joan Slusser (11th - speech - Beaver), Elizabeth Bricillo (9th-French-Shelocta), Diana Hutchings (5th-Microbiology-Beech), Kathryn Jo Mayes (2nd-human development-Newton Square), Ann S. Mundo (8th-Science-State College), and Linda Reich (8th-English-York).

Gail Madison (2nd-art education-Rydal) represented Ogontz campus Army Reserve Officers Training Corps and Suzanne Gelty (5th-elementary education-Schuylkill Haven) was the can-

And Here's the Rest...

Student Analyzes City Attack

Editor's Note: This is the second in a series of student reports from Vietnam by two students from New York City's Queens College.

One student, Ralph Paladino, supports the presence of the United States in Vietnam. The other, Lee Dembert descent

bart, does not.

The Daily Collegian is running the series in cooperation with the Queens College newspaper, The Phoenix.

By RALPH PALADINO

Special to The Daily Collegian SAIGON, Feb. 4 - The Communist attack on the capital of South Vietnam began on the second day of the Chinese New Year. Simultaneously, dozens of major government and American installations in and around Saigon were attacked by small bands of well-armed Viet Cong with orders to capture and hold until relieved. The relief never came. Within 72 hours, two-thirds of the attackers were dead or captured, the rest routed.

Within seconds of one another, troops attacking the Presidential Palace were spotted by Korean guards in front of the nearby Ambassador's home, a powerful explosion damaged the Philippine Embassy, a 19-man suicide squad breached the outer wall of the American Embassy and was able to capture a portion of the building, the Vietnamese radio station was destroyed, numerous police stations were attacked, and Tan Son Nuht Airbase, a few miles outside the city, was fired upon. Throughout the entire South, similar attacks were in progress with varying degrees of success.

It seems clear that there were three purposes in

carrying out this concerted attack on most of the major population centers of the country: to score enough sig-nificant military victories as possible to force a coalition government on the South; to demonstrate to the people of the large cities, who are losing their fear of the Com-munists, that the Viet Cong are still around and power-ful enough to strike anywhere; and to score as many propaganda points as possible against the U.S. at home and the rest of the world. They had some failures and

There is little doubt that the Viet Cong failed to achieve any significant military victories. In Saigon, only the attacks on the radio station and the American Embassy were successful. Captured areas of the city were retaken almost immediately. Military and police installations beat off the attackers without exception. Snipers were only a scattered inconvenience.

In the remainder of Vietnam, captured areas of the provincial capitals were regained within hours, air bases continued to operate with only one field damaged seriously. Over 12,000 Viet Cong were killed and 3,000 captured, a ratio of 12 to one over allied killed. Militarily, in fact, it was a complete rout.

If had been over six months since any of the major cities of the South have come under Viet Cong affack. Since the last major offensive, the government has strengthened its hold on the provincial capitals and

strengthened its hold on the provincial capitals and through them, the people. It has legitimatized its rule through elections, and instituted some badly needed reforms throughout the country.

While only a small step, the people in the cities are for the first time being approached by government agents other than tax collectors. Some of the remoteness and apathy is breaking down, and the cities are not secure places for the Viet Cong. Suspected VC are regularly informed upon in the large cities today, while a vear ago this was unheard of And most important the year ago this was unheard of. And most important, the Viet Cong have not been able to retaliate in force against the informers.

against the informers.

The new radio and television nets that blanket Vietname have played a large role in creating a sense of national identity — not as Vietnamese, but as South Vietnamese. For the first time, national heroes, popular than the companity in the actors and singers are creating some community in the

The Viet Cong attack on the Saigon radio station and on a number of local radio stations in other parts of the country underlines the fact that the Viet Cong realizes the threat the airwaves pose to them. American radio and TV, heard and watched by as many Vietnamese as Americans, are helping our national image and making more and more untenable the Viet Cong pic-

ture of Americans as imperialist oppressors. Cholon in Saigon is populated by Vietnamese of Chinese extraction, and in an attempt to infiltrate successfully without fighting, the Viet Cong employed their members of similar ethnic background. Almost to a man they were identified by resident Chinese.

When ARVN and American troops entered the city in force, the fiercest fighting in Saigon broke out. With the help of the local citizens, all the VC infiltrators were rooted out and hundreds killed in battle. Hundreds more attempted to exfiltrate in sampans and barges. Snipers in Saigon were captured or killed with the help of the Vietnamese who pointed out escape routes and building entrances to the police. General Weyand, Commander of the III Corps, estimated that ARVN carried 70% of the fighting load throughout the South, and accounted for 700 to 1,000 casualties.

The Viet Cong killed and wounded thousands of civilians in the three days of fighting. In Saigon there were two reported cases of Viet Cong using women and children as shields to make their escape out of the city. In Cholon they captured a children's hospital and used it as a stronghold. They overran a military compound outside of Saigon and executed the wives and children living in it. Snipers shot at civilians and soldiers alike.

Whatever else the Vietnamese feel about the Viet Cong, it is not fear. When the curfew was lifted for a few hours in the secure parts of the city, people and traffic cluttered the streets within minutes. While the Viet Cong may still be around, they seem to have lost their credibility. It is difficult to terrorize a people that simply does not take you seriously anymore.

Much has been made of the VC ability to attack and hold the American Embassy in Saigon, if only for a few hours. Banner headlines throughout the world press proclaim the lack of security that this indicates. Is it possible that with a half million troops in Vietnam, the United States cannot even protect its own Embassy from attack? The answer is that we did not try.

Only seven men guarded the Embassy on the night of the attack. The Viet Cong had no trouble approaching the grounds and blasting a hole in the wall surrounding the compound. The counterattack which occurred within minutes was slowed because of a lack of heavy weapons that might have destroyed valuable papers and buildings. But in a few hours, and without extensive damage (bullet holes in the walls and damage to the roof was the worst of it), the Embassy was recaptured and 19

enemy killed.

Militarily, then, the attack on Salgon and the rest of the nation failed to meet its objective. The present government is still functioning and is in control as much as before the attack. What successes the Viet Cong did have were temporary and pyrrhic.

It is difficult to conceive that the United States can

possibly be winning a war in which it cannot even protect its own Embassy from enemy attack. But it must be conceived, if the engagements of last week are any indication, the United States is winning.

It should be more difficult to accept than the fact that at the height of the battle, planes were still using Tan Sen Nuht Airbase Americans and Victobrese were

Tan Son Nuht Airbase, Americans and Vietnamese were walking the streets, Vietnam Radio stayed on the air from auxiliary transmitters, and the battles were watched from received and vietnamest watched from received and vietnames and vietnames. watched from reoftops and windows. Vietnam was attacked, but is was never under siege.

Fraternity Celebrates Golden Anniversary

weekend. Arrangements for the formal, the "Golden 50," were made by Pledge Class President Ed York.

A banquet was he at the fraternity as a part of the festivities. Alumni attended some of the functions and those who were unable to attend wired their congratulations to the present brotherhood.

Eric Prystowsky, fraternity vice-president, said that the weekend was a "total success." He and fraternity president, Lee Marraccini, were both satisfied with the events of the

Turk Pinned Him in Olmpics, But...

No American Defeated Koll

By STEVE SOLOMON

Collegian Sports Writer
He was a wrestler who, in four years of collegiate competition, never walked off a mat

second best.

He was a legend in his time, a hero, a three-time NCAA Champion. He was tough. He went off to war at 18 and returned as a mature college sophomore three years later. "But only after he scored a takedown on Hitler," a friend once joked. His roughest match must have been against the Germans, because he licked every American he faced from 1945 to 1948.

He was Bill Koll, the Penn State wrestling coach, and it may have been in Europe that he decided to make the sport his career. So he de-

decided to make the sport his career. So he developed a style and winning demeanor that stayed with him long after the firm waist and well-defined arms of his youth melted away.

Fierce Competitor

He became a champion first, then an authority.

ity. He won tournaments, then organized them. His speech comes from a wrestling book, but not his personality. He's warm, personable, candidly honest. He has an aggressive look, but as a high school boy he learned to release it only where it could benefit him—on the wrestling mats. It has

made him a fierce competitor, and a winner.

"There's nothing he likes better than a close meet," one of his wrestlers said, "but he'd better have one more point than his opponent after the

Bill Koll's march towards a spot in the record books started after his graduation from Ft. Dodge (Iowa) High School. He entered the State College of Iowa, a small break in the cornfields of the Midwest, and won ten straight dual meets and

the state AAU title as a freshman.

Then a battle on a much larger scale called, and Koli, dressed in khakis, was in Europe the following year. The work was dangerous and the towns monotonously similar. Nimes, Clermont-Ferrand, St. Etienne, Troyes. It was hell, but it gave him a certain callousness that only hunting another man with a rifle can give.

Unnerving Experience

And by comparison it gave him the failure.

Koll is seldom this quiet during a match as the

Koll is seldom this quiet during a match as the a move into the big time, where Bill Koll belongs. lively coach frequently takes to his feet to shout the office is still small, but there is always a story, a few laughs, a blue haze of cigar smoke. And by comparison, it gave him the feeling that wrestling a man face to face in front of 5,000 people back in the States isn't the worst ex-

perience in the world.

Koll returned to State College of Iowa in 1945, a sort of athletic Napolean ready to direct a nation's post-war attention back to the gymnasium. His return elevated SCI above its tassle and silk surroundings and signaled the greatest era of wrestling the school has ever known.

Koll was never defeated in collegiate competition, although it wasn't until his junior year that he overcame the effects of the three year layoff that had him dodging bullets in Europe. He went unscathed through 5 consecutive dual meet bouts, and won the NCAA 145-pound title three times running. Twice he was the outstanding wrestler in the tournament.

Different Sport

Wreetling in 1945 was essentially a different

Wrestling in 1945 was essentially a different sport than its descendant today. The rule book could have been read cover to cover and memorized between the first and second periods of a match. It was a rough sport. Virtually any hold was legal. You had to defend yourself at all times, lest you find yourself lifted five feet off the mats and bounced up and down on your nose

several times.

It was a brutal era, but it bred its heroes.
Koll's profile decorated the sports pages of many
Midwestern newspapers, and he probably could
have stolen a few votes from Truman in 1948 if he weren't competing for a medal in the London Olympic Games.

It was in London where he met his match. His opponent in the semifinal round was a Turk with a style completely foreign to the Western method. Koll, nevertheless, scored seven takedowns, but in one agonizing moment left himself vulnerable—and was pinned. With the tough American out of the way, the winner breezed to a gold medal.

Established as Coach
Twelve years later, Koll was enshrined in
the Helms Athletic Foundation Wrestling Hall of Fame. By that time he was a coach, and rapidly establishing himself in the upper echelon of the

nation's wrestling mentors.

Koll had returned to his alma mater in 1953 to succeed his collegiate coach, Dave McCuskey. He produced his first NCAA champion in the same year, Jim Harmon, at 157. Two more followed — Bill Weick at 157 in 1955, and Bill Dotorn at 157 in 1962. His cloven year record at SCI son at 137 in 1963. His eleven year record at SCI was 71-42-6.

He moved on to Penn State in 1964. It was And a lot of memories.

A Sentimental Evening for Fitz

By PAUL LEVINE

Collegian Sports Editor

Vince Fitz doesn't look like the sentimental type. The lean and grizzled veteran of three years of varsity wrestling wouldn't appear to be the sort of guy to be moved by cheerleaders' yells or the Alma Mater. But State's sinewy 145-pound wrestler may be going a little soft in his old age. Cauliflower ear and all.

"I'm starting to get a little sentimental about it all," Fitz said yesterday. "All of us really want the Navy match to be the biggest one ever.'

But then, Fitz has a right to be a little misty-eyed. On Saturday night, Fitz and Hall. Fitz, Wally Clark, Dave Spinda, Matt Kline and captain Rich

four teammates will be competing in their last dual meet ever in Rec Lorenzo all want their last appearance to be a memorable one.

And, with the powerful Midshipmen furnishing the opposition, the match should be one that nobody will forget for a long time. The Middies will sail into Rec Hall riding the crest of their best season in 13 years. Navy is currently undefeated through seven matches and is ranked seventh in the nation by the Amateur Wrestling

LEVINE

But Fitz and friends aren't exactly overawed by the Navy statistics. The Lions have been beaten only once in six matches and are listed as the coun-

try's eighth best team. Saturday night, something has got to give.

"You'll never see a better wrestling match than this one," said Lion coach Bill Koll. "Navy vs. Penn State is becoming one of the country's best

And this year, the word "rivalry" may be an understatement. "Feud" is more like it. There are a few scores to settle on both sides of the Mason-Dixon Line when the Middies hit town. They're still fuming down in Annapolis about last year's match. In that one, the Midshipmen held a 15-3 lead over the Lions after six matches and appeared

to be on their way to an easy win. Three bouts and three Lion wins later, it was 15-12 Navy, and the rest was left to the big boys. Lion heavyweight Mike Reid took to the mat and Navy's Guido Carloni charged out to the tunes of "Anchors Aweigh." While the Midshipmen Band played furiously and the frantic Middies in the stands screamed in well-drilled unison, Reid squeaked by the previously undefeated Carloni,

There are some scores to settle on State's side, too. The Lions finished 8-0-1 last year and the 15-15 tie with Navy is rather irritating, just hanging on the end like that.

But there is more to it than just last year's tie. Penn State's five seniors want to win for another reason. None of them has ever been on a team that defeated Navy. As sophomores, the Lion varsity was upended 20-14 by the Midshipmen. And, three years ago, the Lion freshmen were defeated by the Navy Plebes.

There are a lot of personal grudges to be settled," Fitz said. "We want to win this one more than any other match ever - more than Lehigh last year."

And Fitz has an additional reason for wanting this one - a three-year-old reason. In the NavyPenn State freshman meet three years ago, Fitz defeated Pete Vanderlofske, 10-5. But two weeks later, in the freshman tournament, the "V" surprised Fitz, 4-2, and the lanky Lion has never forgotten.

"I've been waiting three years for Van-derlofske," Fitz said. In our sophomore years, we both wrestled 137, but he went down to 130 for our match. Last year, he went up to 145, This year I'm hoping we'll meet and decide things.

Both Fitz and Vanderlofske have been wrestling at 145 pounds this season. Both have 5-1 records, and unless either coach plays some hankypanky strategy with the lineup, they'll get together for the rubber

VINCE FITZ . . . he can remember

There are other reasons, too. Four years of wrestling can bring back a lot of memories.

"I remember when we came here as freshmen," Fitz said. "They didn't even know who Lorenzo was. Or me, for that matter. We were just a couple of guys from New Jersey. Since then, we've all come a long way. Dave Spinda has come along and is having a good year. Wally Clark and Matt Kline are both doing great. We've all worked hard

And Saturday night, Fitz and friends will all get a little sentimental together. But first they have a few old scores to settle.

Collegian Sports Writer Bill Kupferschmidt, representing Uniontown House, defeated Fred Long of Balsam House by a score of 21-14, 21-12 to win the dormitory singles title in intramural handball last night at Rec Hall. Kupferschmidt used well placed shots to keep his stronger opponent running. The first game started off as a see-saw affair, with the lead often changing hands. Kupferschmidt then took a slight lead, 12-10. All the running caught up with Long, and soon he was unable to running caught up with Long, and soon he was unable to reach his opponent's well-placed shots. Kupferschmidt stormed to a 17-11 lead then came through with a few good stormed to a 17-11 lead then came through with a few good serves to take the game from his hustling opponent, 21-14. The second contest saw streak scoring on both sides. Kupferschmidt scored 9 in a row to take an 14-3 lead, then dropped six points to Long. The Uniontown representative controlled the game to the finish, winning the title with a 21-12 victory. The best match of the night saw independent Mike Lefkowitz outlast Harry Kocopi in a slugfest that lasted a total of 2 hours and 40 minutes. The game was typified by the strong shots of two

The game was typified by the strong shots of two powerful players. Lefkowitz took the first set by a 21-16 margin only to have Kocopi rally to reverse the score in the second set. The two opened the final round engaged in a very

life two opened the final round engaged in a very close battle, Lefkowitz placing his serve to Kocopi's weak left and Kocopi putting his power to good use.

With the score at 8-7, Kocopi found it impossible to put two good shots together, while Lefkowitz managed to chip out one score at a time, until he won the match with a misleading 21-7 final game.

A fractornity champion was also growned as Dan

Handball Champs

Crowned in Rec

By DAN DONOVAN

a misleading 21-7 final game.

A fraternity champion was also crowned as Dan Fogel of Beta Sigma Rho downed a determined Dave Lewis of Phi Delta Theta by a 21-8, 21-1 score. Fogel, a highly-rated performer, kept the match well in hand in sweeping to the title.

The graduate title was also decided by a lopsided victory, when Denny LaRose dumped Trevor Lewis in a 21-10, 21-8 score.

matriculation and activities

MIDSHIPMAN Bob Ahrens is one of Navy's outstanding wrestlers. Ahrens, a 167-pounder, has a 5-1 record on the season, and Saturday night in Rec Hall will be up against the Lions' Matt Kline, also 5-1. The Penn State-Navy meet is rated as the top mat battle in the East this year as the Midshipmen are currently number seven in the country and the Lions are ranked eighth.

WANTED: Protestant or Roman Catholic students majoring in physical sciences and entering graduate school, who desire to develop their Christian faith while training as scientists and engineers. Combine work towards Ph.D. or M.S. degrees at The Pennsylvania State University with seminars and lectures on contemporary theology and Christian responsibility for scientists, and participate in a supporting Christian community. Conducted by a group of Penn State faculty members. Write: THE

Lions Win

Special to the Collegian
PITTSBURGH—Penn State's basketball team breezed
to its eighth win of the year last night as the Nittany
Lions defeated Carnegie-Mellon, 70-45.
The Luons made good use of their height advantage
and quick passing on the fast break as they handed Car-

negie its 10th loss in 16 outings. Sophomore guard Tom Daley led all scorers with 17 points on 7 field goals and three free throws. Reserve Gregg Hamilton was second in scoring as he hit 7 of 8 shots from the floor and wound up with 15 points. Galen Godbey chipped in with 12 for the winners.

Carnegie's high scorer was 6-5 center Mark Lang who scored 11 points before fouling out three minutes into the second half.

The Lions' leading scorer on the year, Jeff Persson,

was held scoreless, although his passing was instrumental on the fast breaks. Persson took only six shots.

"The substitutes—Godbey and Hamilton—played well, and Tom Daley played a good game," said Lion coach John Egli. "We kept at the basic things and didn't fall asleen. Everyone's playing better now." asleep. Everyone's playing better now."

Penn State, now 8-8 on the year returns home to face Colgate in Rec Hall Saturday afternoon.

A book for every student to study!

Conrad Lynn is one of the most experienced draft lawyers in the United States. He has specialized in draft cases since World War 11.

His book is based upon two beliefs:

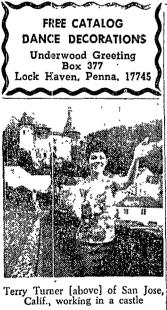

• That it is every young man's patriotic duty to stay out of the army, in order to help save America from the greatest shame in its history.

• That every young man should have access to the same information used by the rich - who spend thousands of dollars on legal advice to get deferments and exemption.

In this book, he puts his knowledge and experience at the service of the young men of America who refuse to cooperate in the crime of Vietnam.

Nuclear Reactor Open To Visitors Wednesday

The annual open house program of the Nuclear Reactor Facility at the University has been arranged for Feb. 21, with tours for visitors available between 1:30 p.m. and

The conducted tours, according to Donald A. Ross, acting director, will require about 40 minutes and have been planned as a part of National Engineers' Week, Feb.

Visitors will see the Penn State Triga Reactor core, reflecting its blue glow from the bottom of a 22-foot "swimming" pool, the shield for the reactor.

The tour also includes the Cobalt-60 gamma ray facility and the recently established Radionuclear Applications Laboratory where researchers can detect an element in the one-part-per million level.

One of the most popular areas is the "hot cell", where the handling of radioactive materials by means of mechanical arms can

Throughout the tour, visitors will be reminded of the extensive and elaborate safety precautions surrounding the Facility,

An exhibit on the Facility will be held in Hetzel Union Building describing the new undergraduate program in nuclear engineer-

ing to begin next September.

The University is the first college in Pennsylvania to offer such a program, which will provide industry with competent engineers in the application of nuclear engineering, said Warren Witzig, professor and head of the Department of Nuclear Engineering. At the open house, faculty and staff members will be available to answer questions in regard to courses offered and ad-

missions requirements and procedures. The program has been arranged by the Penn State chapter of the American Nuclear Society and the faculty and staff of the Department of Nuclear Engineering.

Right Under Your Nose & Alexandria Company

Winter Weekend '68-Ball, Concert & Festival

An unproclaimed Winter Weekend '68 begins a little slowly tomorrow, but don't be misled. This will be one of the swingingest four days to date.

Movie bugs — here's the line-up: Cinema PUB (Pollock Union Building, in case you're wondering) will feature "Blindfold" with Rock Hudson at 8:30. The FUBerama (Findley Union Build-

ing, etc.) goes oriental at 6:30 with "The World of Susie Wong," starring William Holden and Nancy Kwan. The North Palace will also show "Susie", but at 9 p.m. All charge only 35c

The weekly FUB jammy will start at 9 tomorrow night, "Get in the Swim" with The Intrigues previews their winter weekend activities. Only 25c.

Rhythm in the PUB

Jazz lovers: the This 'n That Coffee House will move to the PUB tomorrow night for a 9 to 12:30 stint. The Bill Fox Trio and the Darryl Austin Quartet will provide the rhythm if you provide the bread (15c members, 35c others).

Thorton Wilder's plays on the generation gap (you mean there's a lack of communication between the generations?!), "Infancy" and "Childhood," will be WPSX-TV's contribution to the evening. The NET Playhouse begins at 10

p.m.
Saturday the campus will start to swing. The long awaited Military Ball opens its receiving line at 8:45 in the Hetzel Union Ballroom. Later in the evening a queen will be announced and, of course, a floor show by The Vogues will

complete the formal affair.

The East Halls Winter Arts Festival also will kick off Saturday night with the first splash party-jammy ever to be

held in the natatorium. The 7 o'clock affair will provide live music by WDFM (wonder if they have an underwater mike) until 10 p.m.

FUB Love-In? Following the nautical trip, a "Special

Show" for 50c a couple is scheduled in the FUB. (Rumor has it that it's a love-in). If you couldn't get a ticket to the Ball (and can't dance anyway), or don't know how to swim, and haven't anyone to love, it's not the end of the world, honest, for there's always the Student Films in the HUB Assembly room. Saturday night at 7 and 9:30 p.m., and again on Sunday at 6 and 8:30, "Toys in the Attic" starring Dean Martin will fill the

The event of the day on Sunday will be the Young Rascals Concert at 8 p.m. If they can't get another comedian they

may show Roadrunner cartoons!
The FUB's Art Festival continues. Art by East Halls residents will be displayed all week in 106 Fisher Building (between the towers). Sunday the exhibit will run from 1 to 4 and 6 to 10 p.m. During the

rest of the week it will be open from 6 to 10 p.m. each night.

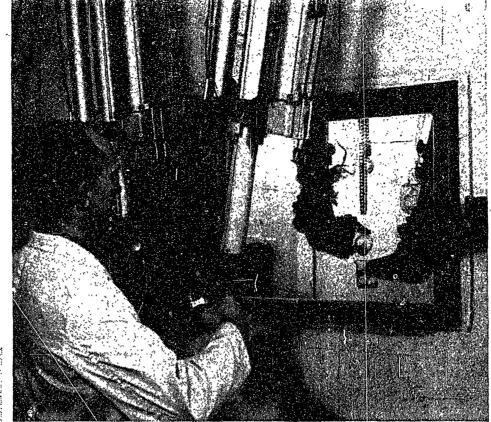

The FUB is making its Sunday night

jammy a regular thing, too. This week it will be free, starting at 6:30.

Monday will start the FUB's free film festival. The Horror Show Spectacular will begin at 6:30 every night. The first thriller — "Isle of the Dead" with Boris Karloff — is supposed to be a takeoff on an obscure island-type community in Pennsylvania, better known as Happy

Valley.

Monday night WPSX will study a problem of interest to all agricultural majors — "Will Farming Survive" — on its new series "NOW!" at 10.

MECHANICAL ARMS in "hot cells" at the University's Nuclear Reactor Facility aid the researcher in his work with radioactive materials. The "hot cells" are among the parts of the facility that visitors can see during an open house from 1:30 to 9:30 p.m.

SFS Buttons Declare 'I'm a Penn State Lover

the Valentine 'bug. and-white button stating "I'm and organizations in promotion a Penn State lover." Buttons of school spirit, and membership cards are available for 25 cents on the ground floor of the Hetzel Union

Building. SFS had its beginning last fall when the wife of one of Penn State's football coaches organized the pre-Miami University game pep rally. Several students then realized the need for an organization to develop and coordinate school

Students for State has caught noted for outstanding service and leadership were invited to Members are proclaiming the first meeting with the aim their passion on a bright red- of uniting campus activities

The group has organized pep rallies, co-spons ed a Banner-Contest, sold spirit badges such as the "Boul Bound" buttons, formed an honor line for the Pitt football game and chartered a flight to the Gator Bowl.

When there were not enough tickets available to Penn Staters for the Syracuse game, SFS contacted the Syracuse ataletic office and procured Approximately 30 students more. The group also offered

SUITE 102 HOLIDAY INN

finder of the Lambert Trophy.

Plans for next year include a Miss Penn State Spirit contest, a banquet for varsity athletes and the opportunity for freshmen to watch the football team

Voting for Panhellenic executive officers will continue today from 11:30 a.m. to 1:30 p.m. and 4:30 to 6:30 p.m. The polls located in each residence hall lobby.

At a meeting of the Panhel council Tuesday night, it was announced that Joan Kinkead will continue as president of the council until Pam Aughen-baugh, first vice president, returns from student teaching. She will then take over as Panhel president,

Patty Rissinger, second vice president, reported that sororwomen had a higher scholastic average for the fall term than the independent women. The Greeks averaged 2.819 in comparison to the 2.728 average for the non-sorority women and the 2.750 for all university

Kappa Kappa Gamma had the highest individual sorority average with a 3.083, followed by Iota Alpha Pi with a 3.000 and Alpha Omicron Pi with a

test.
Emphasis was placed on the numerous Greek Week events,

and all sororities were encouraged to participate fully in as many activities as possible.
