Win Opener 45-22

Lions Rout Midshipmen

By DON McKEF Collegian Sports Editor

Charlie Pittman returned to his home state yesterday and gave his fellow hylanders something to think about in his first game near home in two seasons. The shifty Baltimore native ripped off runs of 37 and 58 yards, gained 176 yards in 19 tries and scored twice. He also got enough help from a strong Penn State running attack to crush Navy 45-22 in the season's opener.

It was an overcast day in Annapolis and the crowd of 28,796, the third largest in the Navy Marine Corps Memorial Stadium history watched the Lion's completely overwhelm the Middies.

State's vaunted defensive unit, third best in the nation last year, showed some eratic moments, but Navy wasn't tough enough to take advantage of what breaks it got early

of giving us anything, so we weren't spectacular on defense, but we did a good job.

But the main show was Pittman's flying feet and the equally effective running of Gary Deuel, Lydell Michell and Franco Har-

Pittman set the pattern for the day when he went around right end for 37 yards on State's fourth play from scrimmage. He hit the end zone three plays later.

The next Pttman burst was even more effective. He broke off left tackle and ran for a 58 yard touchdown, out-racing three Middies to the end zone.

Chuck Burkhart showed some effective passing in the opener. The senior completed 7 of 8, hitting some good passes, but the main offense was still on the ground.

Commenting on State's defense, Penn State head coach Joe Paterno said, "They younger versions of Pittman Mitchell, looked like

were content to play tight and protect Mc-Nallen. They weren't going to take the chance off his first varsity touchdown in the third quarter, going 39 yards through the right side of the line, showing some good moves on the way. The score gave State a 24-7 lead.

> Harris came right back three minutes later, taking a handoff from reserve quarterback Mike Cooper and carrying six yards to the goal line. Mike Reitz tacked on his fourth extra point. State's lead 31-7.

> The score which made it 38-7 took ever less time. Neal Smith intercepted a Mike McNallen pass and Cooper took State to the end zone in two plays, scoring himself from

> Paterno substituted freely throughout the second half, giving his subs a chance to see some action. The Navy offense picked up against the second and third string State defenses, but by then the game was far out of reach. McNallen put on a passing snow in the last quarter, but he was throwing mainly for exercise.

Orientation Program Begins Today

Freshmen Prepare for University Life; Walker Convocation to Start Activties

By ROB McHUGH

Collegian Staff Writer Frosh, prepare for battle!

Guys, break out those boss duds you've been buying all summer. Get ready for your first chance to use that sophisticated, mature, "I never blow my cool" smile you've been practicing since June. And remember, that first haircut isn't due until December. You're at Penn State now.

Chicks, throw away those skirts and bring out the blue jeans...the tight ones. And the hair straightener. And the cigarettes you've always had to hide from mommy and daddy.

opportunities for them to meet one another.

A total of 5,825 new students are expected to report today to University Park. Included are 3,350 freshmen, 225 transferring to the University with advanced term standing and 2,250 transferring from the Commonwealth Campuses.

Activities, Activities A week-long series of activities has been set to familiarize these students with the University's facilities and to provide opporunities for them to meet one another. Essential paperwork required by the University is also completed during this

Student co-chairmen of this year's orientation program are Margie Gohn (10th-history-York), Kathy Rittner, a 1969 graduate in English, Stu Stein (10th-history-Bala Cynwyd) and Marc Steinberg (10th-English-Wyncote). A total of 492 staff members will be participating in the orientation program.

According to Stein, residence hall house presidents were encouraged to participate in the orientation program wherever possible, or to suggest alternates. In this way, orientaion leaders will still be available after the term begins, to continue helping if needed, he said. He also said that living with the freshmen will provide another reason for the OL's to care about the success of orientation.

Stein explained that, previously, many of the OL's were students living in apartments or in fraternity houses. Experimental Program

In an experimental orientation program this year, 200 students from one of the residence areas will be broken down into groups of 10, each with a leader. The program was organized Sam Edelman (Graduate-speech-Altoona) and Myron Lustig (10th-speech-Harrisburg).

Edelman said that, by using the program with the new student, "we hope to give him the chance to make immediate acquaintances." The groups will discuss a wide spectrum of problems. If the students involved react entitusiastically, the program will continue after orientation is officially ended.

New students living in the residence halls will meet with orientation leaders at 7:30 tonight. These meetings will take place in the residence hall lounges. At the same time, new stu-

dents living off-campus will meet in 121 Sparks. The President's Convocation, required for all new students, will be held at 9 tonight in Rec Hall. University President Eric A. Walker, as well as student leaders, will address the gather-

Students will attend meetings with the deans of their respective colleges at 9 a.m. tomorrow.

During the next few days, other academic orientation and all essential testing will be conducted. All new students are required to take a swimming proficiency test, and a hearing and speech test. A series of special tests will be administered to all new freshmen. Times for these tests have been arranged by alphabetic groupings.

Registration for all students will be held Wednesday through Friday.

Special events have been planned for every evening during Orientation Week. Tomorrow night, each residence hall area will sponsor an Activities Night. Programs will be presented showing life in each dorm area. Students also will be introduced to personnel working in the residence hall areas.

A separate program has been planned for students hving off-campus. These students will meet with members of the orientation staff and the Dean of Student Affairs Office, and will be advised of their legal rights in such areas as housing. They will also be introduced to the Town Independent Men's Council, an organization promoting the interests of students living off-campus

A "Tune-in to State" program has been set for Tuesday

At USG Encampment

Rlack Problems Studied

MONT ALTO-Around 15 of the University's black leaders persuaded a majority of the students, faculty and administrators attending the Undergraduate Student Government Encampment to junk the formalized committee structure of the meetings and to study only the blackrelated problems confronting the University.

THE DAY OF THE DINK is over. This year's freshman

class is now wearing new "Frosh Hats" as part of the

The 18th annual Encampment, held each year for student leaders and other members of the University community, was almost thrown into a turmoil when the black students, unhappy with the two committees they had been placed on, said that participants either study black problems for the rest of Encampment or they would walk

A majority of the participants agreed to go along with the blacks—which included faculty and administrative members—and Encampment became entirely black-oriented. Committees were set up to study black admissions and financial aid for blacks, ways to increase the number of black faculty members and administrators and the establishment of an off-campus black cultural arts center.

Many students expressed dissatisfaction with the new committees. Statements such as "we've been had" and "I don't like to be manipulated" were heard frequently.

After dinner on Thursday, Encampment members decided to study a number of different proposals which were offered to the group.

A committee was formed from those persons who had offered suggestions. The committee returned with two proposals. One was to split the group into four separate committees which could discuss and study anything they might choose to discuss. The other proposal would be to set up four committees to discuss racism, curriculum, student unrest and university government.

The blacks, however, were determined to put their proposal into effect, and any other proposals which were offered were strongly opposed by the black group and other members of Encampment.

According to Encampment co-chairman Rick Wynn, blacks were placed on four commmittees in the original plans for Encampment, but that all of the blacks, except two who did not attend, were on the "Admissions" committee and the "Black Student in a White University"

Wynn, who apologized for what some termed an "over-it" on the Encampment chairman's part, said that he

had not intended to segregate the blacks into their own committees and that they were welcome to leave their assigned committee and join any other one which might

Some observers of the proceedings said that the tactics used by the blacks to get Encampment participants to discuss only black problems were "frequently resented" by the white members of the group.

However, Encampment participants widely agreed later that the discussions, which were led by blacks, were pro-

Blacks who attended the Encampment included Black Student Union members Dave Paterson, Raleigh Demby and David Harris; Donn Bailey, instructor of speech; and George Culmer and Hodges Glenn, both from the admissions office.

New Frosh Hats Make Blue Dinks 'Old Hat'

By REENIE THOMSON Collegian Staff Writer

Button, Frosh! Button, Frosn:
But you won't button with a
dink this Fall Term, you'll be
using a frosh hat. The frosh
hat is a brand new name for a
brand new dink. It resembles a
"sailing cap" in navy blue
with the letters PSU in white. According to Stu Stein, co-chairman of the Orientation Committee, the frosh hat is more "serviceable" than pre-

vious years' hats. The "Game" is another innovation in this year's customs schedule. It replaces the campus tours of former orientation

programs. Each freshman receives a Each freshman receives a game sheet from his orientation leader. He must have the sheet stamped at the indicated locations between 2 and 4 p.m. Friday. Each location is a site of traditional interest, and a short talk on the history of the site given there. Completed sheets can be

turned in at a table near the Hetzel Union Building.

A jammy will be held 9 p.m. Friday at the Ice Pavilion. Two freshmen, whose names will be drawn at the jammy, will receive two concert tickets and a date. The coed's date will be a football player, and the man's will be either Miss Penn State or a member of her Penn State or a member of her

court.
The Orientation Committee has prepared a customs book-let for all entering freshmen. It contains songs and cheers to It contains songs and cheers to be used at the pep rally scheduled for 7:30 Friday night at the Pavilion. The booklet also lists questions on tradition that all freshmen are required to answer if asked for by upper classmen. The answers have not been included so that freshmen will have "enough initiative to find them themselves". Stein said
Football practice scheduled

themselves" Stein said
Football practive scheduled
for 2 p.m. Thursday on the
field by the pavilion will be
open to all freshmen. Stein
said. "We are trying to
generate school spirit for the
football team most immediately and for the school as
a whole."

Some events of the orientation program have remained the same as in previous years, according to Stem. The domining of the frosh hat by University President Erie A. Walker at the convocation 9 p.m. Sunday still marks the beginning of Orientation Week. The frosh hats will be tossed during half-time of the Peon State Colorado game Saturday to symbolize the end of orientation and the acceptance of freshmen into the University student body.

Other highlights of Orientation Week include a pie Some events of the orien-

Other highlights of Orien tation Week include a pie throwing contest with campus personalities as targets and a showing of the "Year of the Lion," a film review of last year's football season, at the Friday night jammy.

The vear's customs are un-

This year's customs are under the supervision of the Orientation Committee as special events. For merly there was a separate Customs Committee that was operated Undergraduate Student Government.

As stated in the resource booklet given to all or entation

booklet given to all or entation leaders, "The purpose of customs this year is to integrate the freshmen into the mainstream of Penn State life., as rapidly as possible. We have tried to stress not only tradition, but those things everyone should know,"

Eric A. Walker

University President Welcomes Newcomers

Welcome to University Park.

You have started on the path of higher education at one of the great universities in the nation. Right now that path may look awfully long, but remember that the longest journey begins with a single step.

I hope you will feel quickly at home at Penn State. While a University such as this may seem bewilderingly large and complex at first, its very size and diversity offer you almost unlimited opportunity for stimulating experiences, rewarding accomplish-ments and satisfying friendships. You will be thrown together with a good number of people you don't know, but remember that a stranger is really just a friend you haven't gotten to know.

As you begin your work at Penn State there may be times you will be confused, disappointed, or depressed because of some failure. But there will also be many more times when you will be elated by success. Learn to take both in stride. I know that the faculty and staff and older students will do everything possible to make you welcome and give you any assistance you need.

If you approach your work with an open mind and a desire to learn, success will be yours, and you will find that these will be among the most cherished years of your life.

Good luck. Eric A. Walker

Collegian Publication

In addition to this Orientation Edition of The Daily Collegian, there will be two special Registration Editions Wednesday and Friday, Regular Tuesday through Saturday publication begins Sept. 30.

1,100 Men, Women Affected

Housing Squeeze Again

By RENA ROSENSON Collegian Staff Writer

Remember all the stories you heard last fall about students sleeping in study lounges.

recreation rooms, shower stalls, laundry rooms and on Old Main Lawn? Some of those stories probably were exaggerated, but not all. And the same problem has reoccurred this year. According to William H. Reiber, assistant

director of Housing and Food Services, 527 women and 503 men will be living in staging areas at the beginning of the term, but no applications for rooms in residence halls have been rejected. In fact, he said, there is space available for 30 additional women and 19 men in staging areas.

Reiber said it is impossible to say how soon the staging areas will be cleared. "It all depends on the number of students leaving for student teaching in the winter, the dropout rate after the first two weeks of classes and the number of admissions, if any, Winter Term, We expect to lose at least 200 students during just the first two weeks," he said.

Last Fall Term more than 1.000 students were housed in study lounges, recreation rooms and work rooms of the residence halls. By the

middle of Winter Term, all students were assigned to regular rooms.

Reiber said one of the major causes of overcrowded residence halls is that some students wait until the last minute to advise the University whether they will be accepting their offer of admission. He said some students never reply until they reach the campus to register.

"And a big problem is the fact that some students rely on state loans for funds. They can't accept their offers of admission until they receive notification of approval of their loans, he said.

Last year housing was provided for men stu dents in the Thompson Hall recreation room on a night-to-night basis until housing was found elsewhere. There is space set aside for the same purpose this year, but the location has not yet been announced, Reiber said.

In an attempt to ease the housing shortage. President Eric A. Walker sent a letter to 130 parents of University students in Centre County asking them to "consider having their children live at home during the Fall Term " The letter stated:

"This fall the University is going to be con-(Continued on page five)

Editorial Opinion

The Challenge

a pile of crap. Are you ready to know around every corner may not be true what life here really is?

It's a grind, a groove, an affairwith-an-older-woman type thing. It's a real pain, it's a high, it's frustration and dissent.

But most of all it's what you want it to be. Your parents and orientation leaders have preached to you about that. But it's true.

You can go through four years of most nil. PSU without knowing anyone other than your roommate. You can join the pinball players in the HUB, spend your Saturday nights getting drunk with the boys, go to classes, study, and end up wondering what you're doing here, after all.

BUT YOUR TIME here could also be the most maturing, exciting four years of your life. The opportunities for growth are here if you have the guts

If you came to college primarily to protest or revolt you may be frustrated by the University's reputation as a conservative, sedate school. You'll face labyrinths of red tape and balky administrators who answer to an antiquated State Legislature. You'll need patience, but persist. Change eventually does reach Centre County, and we're sure your struggles will not be ignored.

IF DRUGS ARE your bag, be care- comes you, and challenges you.

here, but there are enough student informers to keep the narcos busy.

If you're the studious type, you may be disappointed with the University for not providing the most stimulating intellectual atmosphere. In fact, you may complete three years of college before you are taught by a full professor. Even then, you will find the opportunities for face-to-face discussions with him al-

You may notice the emphasis here seems to be on an almost trade school education. Antiseptic laboratories and machine shops may satisfy you, but sitting in a liberal arts class, the sparseness of black faces in campus crowds might tend to bother you.

WE HOPE YOU haven't come here with your father's conceptions of college life. Though we unfortunately still have a reputation as a party school, some say the fraternity system is dying, and despite our football success of last year, athletes are by no means the exclusive Big Men On Campus.

Yes, Penn State is big. But despite the gripes you'll hear from cynical upperclassmen, you don't have to be "just a number" here. Let yourself go, do your own thing, explore, protest, sweat, probe.

FORTY-ONE SEVEN!

is an introduction to the collegiate press for most freshmen. The Collegian is the Penn State version of an information medium which at many schools is only a public relations organ for rock concerts, sporting events and campus social activities.

This sort of fare is at most a very small part of The Collegian. What the editorial staff does here as quoted above is to spread information throughout the campus, especially to students.

The activities of University figures, from President Eric A. Walker to football co-captain Tom Jackson and everyone in between will be reported to you. The Collegian also will tell you what these person's

activities mean to you as students.

JUST AS YOU would pay attention to newscasters relating the goings-on in Washington or Peking, listen to The Collegian when it tells you what happens in Old Main, Interfraternity Council meetings, the Hetzel Union Building or in Beaver Stadium. These are just a few pulse spots of the University Park micro-world.

With the facts, you will form opinions on the Penn State world. Our editorial pages tell you what we think about it. Your evaluations are your own business and we don't pretend to be vocalizing cambusiness. pus sentiment on any issue. Our editorials are the sentiment of the people who work in the basement of Sackett, and if you agree with us. fine.

If you don't, tell us. We publish Letters to the

Editor daily, and specifications for writing are elsewhere on this page. If you want to affect our edi-

torial policy, join us.

NEWCOMERS TO CAMPUS. we welcome your coming to talk to us about working on The Collegian. Without the biases that PSU upperclassmen have, you can offer the paper a new approach in reporting writing. There are no windows in The Collegian office, but as a staff member, you will see parts of the University many 12th-termers never knew existed.

By DAVID NESTOR

Collegian City Editor Mr. First and Mr. National evidently don't have enough money. I say this because they find it necessary to take mine, and anyone who takes money from a poor college kid must be either pretty hard up or a crook.

Every time I cash a check the Messers First and National take a dime, but I don't really mind this too much. They are kind enough to return part of my dime into my savings account. They call this interest.

The thing I do mind is when someone elese

money. I refer to the downtown Shylocks, A recent exchange with one of these latter-day Bluething like this. I was a little

short of cash and, knowing that I would have to buy lunch, I walked into the establishment of one of the

NESTOR downtown merchants and approached the check cashing window.

Now I really didn't want for much. Just a lousy \$10 which this particular place has gotten out of me at least 50 times in the past three

Anyway, I walked up to the window and presented the check.

"Can I help you?" came from behind the

"Naw, I just want to stand here and look in your little window. But as long as I'm here, would you like to cash a check for me?" I handed her the check.

'Where's your telephone number? How do you expect me to cash a check without a telephone number on it?"

'Oh, I'm sorry." I wrote the telephone number on the check and resubmitted it for her

approval. "Now I need your local address. How do you expect me to cash a check without your local address on it?"

Gee, I guess I forgot. Must have lost my head for a moment there. Let me write it right

on there for you." With this latest task completed I once again handed her the check.

"We're getting there. Now all I need is your father's name and occupation, home address, home telephone number and the number of children in the family. Then we'll be all

As I wrote all of this dutifully on the back of the check and the piece of notebook paper I stapled to the check, I mumbled. "Where do I

go to get my fingers printed?" My latest writing finished, I handed her once again the picce of paper I hoped to convert to money, and she said, "Now just stand in line over there to have your fingerprints

"You've got to be kidding."

"Yeah, all we need now is some identification.'

I opened my empty wallet and said, "I have a matric card, a drivers license, a social security card, a draft card, an LCB card, a voter's registration card and a picture of my two sisters. Which one do you want?'

She glared at me from over top of her horned rimmed glasses and said the matric card would do just fine, thank you.

I showed it to her and she told me to take it out of the wallet and hand it to her. Then she

started to stare at the picture. "It's three years old," I explained. "My hair was shorter then. I had more pimples. I still have that shirt back in my apartment,

want me to go gct it?" She said nothing. She turned the card over and compared the signatures. Finally, after about three minutes of this total silence and study, she handed me nine dollars and 90 cents.

"Hey, I'm a dime short." "We charge a dime to cash checks. You

don't expect us to go through all this for nothing do you."

"You mean you kept me here all this time and then you have the nerve to rob me of a

dime?' I turned to leave, but turned back again to look in the window and said, "I hope your fire

insurance is all paid up. "Why's that?" she asked.

Because some night soon I'm sending Slow Ed and Bad News Blunt around to take care of this place. Then you're going to need all of the dimes you've been stealing from kids all these years. Slow Ed and Bad News Blunt never botch a contract.'

Collegian Letter Policy

The Daily Collegian welcomes comments on news coverage, editorial policy and ampus or non-campus affairs. Letters must be typewritten, double-spaced, signed by no more than two persons and no longer than 30 lines.

Grievance Procedure

Members of the University community wishing to file formal grievances over news and editorial content of the Collegian should address correspondence to the Daily Collegian's Committee on Accuracy and Fair Flay, in care of the executive secretary of Collegian Inc., publisher of the Daily Collegian;

Mrs. Donna S. Clemson 20 Sackett Bldg. University Park, Pa. 16802

The committee includes Collegian Inc. President Gerald G. Eggert; Vice President Teresa A. Borio; and Eugena N. Borza, assistant professor of history, who is not a member of Collegian Inc., and was appointed by the publisher from the community at large.

Judiciary Board Plan Approved Temporarily

Collegian Staff Writer

A proposal calling for a Temporary Judiciary Board was passed by the University Senate at its August meeting. The motion was proposed following a report by the Senate Ad Hoc Committee on Special Judiciary Boards.

A special Judiciary Board was formed in March by University President Eric A. Walker to settle charges against several students involved in February campus disturbances.

There was criticism from within the University community over Walker's decision to ignore the existing tribunal system then used to handle students'

At the March meeting, Walker charged the Senate to consider the need for a mechanism to replace the Special Judiciary Board. The Senate Committee Was forward on a result of this was formed as a result of this.

Widely Held Position

The report was presented to the Senate by Committee Chairman Edward Mattil, professor and head of art education. Mattil told the Senate the report "does reflect a position widely held at this University — that of having faculty and administrators, as well as students, involved in the adjudication of major cases of alleged misconduct which broadly affect the University and its essential functions."

According to sub-committee member Bob Bernstein, graduate student in biophysics, Mattil's report was only in-tended as a progress report. "I had the understanding he was only going to read

it (the report), to present it for their perusal," he said.

Bernstein said the report went before

the Senate in a form he didn't agree with, and said he was sure at least one other member felt the same way. The committee was made up of five members.

After the report was read to the Senate, members of the Liberal Arts faculty presented a motion calling for a change in selection of members of the board and calling for the temporary establishment of the board. Both sections of the motion passed of the motion passed.

Students, Faculty as Members

For the amendment, membership of For the amendment, membership of the board is composed of two undergraduate students appointed by the president of the Undergraduate Student Government, one graduate student appointed by the president of the Graduate Student Association, two faculty members appointed by the chairman of the Senate from the elected Senators and one representative appointed by the president of the University.

If the case exclusively involves students of the University.

If the case exclusively involves students from any of the Commonwealth Campuses, the undergraduate board members will be appointed by the president of the Organization of Student Government Associations.

If a case involves students from both University Park and Commonwealth Campuses, one undergraduate will be appointed by the president of USG and one by the president of OSGA.

Additional action on the committee's report was planned for the September Senate meeting. However, the September meeting was cancelled and the action is

tober meeting.
Comments, Anyone?

tober meeting.

Comments, Anyone?

At the August meeting, Senators were asked to submit suggestions and comments on the report, for consideration by the committee. Bernstein said that since the report was submitted, the committee has not met. He also said a note he sent to Mattil, asking that the meeting be held, was never answered.

A separate group also has been working on the problem of the student judicial system. The group is one of three subcommittees within the President's Commission. There are eight students and eight staff members on the subcommittee:

Mattil, who also chairs the President's Commission and is a member of the judiciary sub-committee, said the committee had run "into some small points where we can't come to agreement," but that members were meeting regularly and often to settle these. He added that the sub-committee's first report will go to Walker.

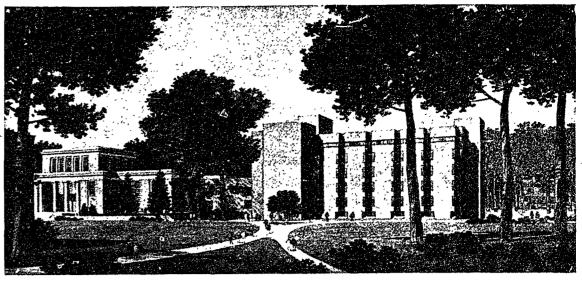

A source close to the sub-committee.

A source close to the sub-committee told The Daily Collegian that Walker is dissatisfied with the action that the sub-committee is taking. According to this

committee is taking. According to this source, the sub-committee was formed to identify areas of concern, but instead is forming legislation.

Bernstein said he is considering writing a letter to the University Senate, asking that the procedures and recommendations of the President's sub-committee be presented to the Senate Ad Hoc Committee for consideration.

Plans are now being made for the two committees to begin meeting together, Bernstein said.

Library Addition Approved

ARTISTS SKETCH OF the new centralized research library which will adjoin the Frad Lewis Pattee Library. Plans for the new structure were approved by the University

Centralized Library Under Construction

By CINDY DAVIS Collegian Staff Writer

Construction has begun on the first stage of a new centralized research library adjoining the Fred Lewis Pattee Library.

Plans were approved by the University Senate on July 1, following recommendations submitted by the Senate Committee on the Library and Other Information Systems.

This first unit, at a cost of over \$4 million for base construction costs, will house mainly science and technological research materials. Arts and humanities materials will be housed in the present Pattee Library until the second unit is built

When completed in about 1975, the total facility will cover an area the size of two and a half football fields.

For Faculty and Graduates

The centralized library is designed primarily for the use of faculty and graduate students although Charles H Ness, assistant director for Library Administration and Planning, emphasized that undergraduate students will be encouraged to use the facility.

Undergraduate facilities will become more decentralized. with new branches to service students in their own living areas. Branches are now located in North Halls, East Halls and Pollock-South in addition to the main undergraduate library in the west wing of Pattec. Copies of all the materials on reserve for undergraduates will eventually be available in all these areas, including the proposed new branch to be built in East Halls.

According to a paper by the Senate committee, the centralized library is needed to "eliminate the inadequacies of segmented and scattered collections, incomplete bibliographic

records, insufficient professional assistance and limited hours of availability now found in branch libraries and reading rooms on campus."

No Funds For Duplication

The report emphasizes that overlapping of academic disciplines results in various departments needing the same materials. However, funds aren't presently available to finance duplication of resources it each department were to have a separate branch library. Further, the cost of clerical help will be cut in half with the centralized system, while the efficiency of professional librarians to assist in subject areas will be increased.

Two branch research libraries will still be required for

will be increased.

Two branch research libraries will still be required for various science faculty members who need materials at their fingertips while conducting experiments. A Physical and Mathematical Sciences Library is proposed for Physical Sciences II when it's completed, Earth and Mineral Sciences, Engineering Branch Libraries and the Architectural Reading Room are to be combined into one branch library for Applied Sciences. Each branch would contain approximately 50,000 relivers.

"Remote Access'

Besides the Undergraduate and Research Libraries, two more levels of service are planned.

A system of academic working collections will supplement the library collections and provide each department with a small limited collection for quick reference. There are 28 such collections now in existence and 13 additional units are in the planning stage.

A fourth aspect is termed "Remote Access to Research Materials." Its services will include remote consoles in various buildings for read-out and print-out of library materials and a computerized catalogue of bibliographic and circulation records.

The present Pattee building will eventually be given over almost entirely to storage of books and other materials which can be pulled out by mechanical means.

Controlled Entrance

One complaint anticipated by the planners of the new research library is the location of the controlled entrance and exit. It will be located on the same side of the building as the present entrance to Pattee, across from Burrowes. No entrance from the back facing Curtin Road could be in corporated because of an underground steam line running along the building.

When the second unit is completed, another controlled pair

When the second unit is completed, another controlled exit could be added on the other side.

A connecting passageway between Pattee and the new building will consist of three levels, including a student lounge. All the new facilities will be carpeted and fully air-conditioned and furnished to provide a comfortable area for

Labor Aide to Review Talks On Student Discussions Office By SANDY BAZONIS monwealth Campuses and James Dorris,

Collegian Copy Editor
Theodore W. Khcel, labor mediator,
will visit the University tomorrow to
renew talks with student leaders, faculty members and administrators on the operations of the Office for Student Discussions.

After campus disturbances Winter and Spring Terms, Kheel was invited here in April to explore methods of imcommunications within proving communications within the University. At that time he recommended that an Office for Student Discussions be established to serve as a communication agent between students, faculty and Administration.

University President Eric A. Walker

Jacob J. Kaufman, professor of economics, as its first director so that the office could function immediately. Kaufman was instrumental in initially inviting Kheel to the University.

Kheel to the University.

Walker requested that a committee of four faculty members and four students assist him in the selection of a permanent director for the office. Walker asked the committee to nominate three to five persons who would be willing to serve in the post.

Students on the committee are Ted Thompson, president of the Undergraduate Student Government; Ivan Sudborough, president of the Graduate Student Association; Ron Batchelor, president of the Office of Student Government Associations representing the Comment Associations representing the Comment.

editor of The Daily Collegian.

Faculty members include Richard G. Faculty members include Kichard G. Cunningham, professor of mechanical engineering; Margaret B. Matson, professor of sociology; William A. Steele, professor of chemistry and Hugh B. Urban, associate professor of human development and psychology,

Kheel, who will be accompanied by his associate. Lewis B. Kaden, will meet with students and faculty to discuss their views of the office and what they see as predominant issues on campus this year.

Kheel also plans to meet with the nominating committee tomorrow afternoon to review the functions of the Office for Student Discussions.

Expansion of Osmond Lab Activities Exposition to Present Part of Summer Renovations Campus Clubs and Organizations

Returning students who think they're losing their minds because some campus buildings appear to be missing may return to sanity — a few buildreturn to sanity — a few buildings did disappear during Summer Term.

Walker Laboratory, formerly Walker Laboratory, formerly on Pollock Road across from the Hetzel Union Building, was razed last month to clear a site for the new Physical Science Unit II and an addition to Osmond Laboratory to which Unit II will be connected. The project, included in the expansion plans for the Colleges of Science, is scheduled for completion on June 15, 1971.

The former laboratory was

completion on June 15, 19/1.

The former laboratory was built in 1890 as a chemistry and physics laboratory in the University's first major building program. Its destruction leaves Pond Laboratory, built in 1915, the oldest of the University's buildings for chemistry and physics.

On the porth end of campus

On the north end of campus, along Curtin Road, an east addition to Pattee Library will replace Hunt, formerly known as Benedict House. The house, built in 1892, was later named for Florence M. Benedict, the first Home Economics

be. Try us.

graduate in 1909. It was renamed Hunt in 1957 for the late Thomas F. Hunt, former dean of the School of Agriculture.

Agriculture.

Since its construction, the house has been used as a residence hall, a faculty dining club, and a Home Management House for the College of Human Development. It was used by the College of Agriculture prior to its destruction this summer. The new library addition, costing an estimated \$4 million, will be completed by Spring Term 1971.

Other present construction sites include a University laundry being built west of the Maintenance Building behind Beaver Stadium. The new building, to be completed in May 1970 at an approximate cost of \$630.000, with launder University linen that was formerly sent to commercial cleaners.

Other buildings scheduled for

Case Taken Under Advisement

Obscenity Law Tested

dealer argued at a federal court hearing Thursday that a portion of the state's obscenity law is unconstitutional.

The argument on behalf of the dealer, H. L. Gundlach, amounts to a test of a 1968 amendment to the law. The threejudge panel took the case under advisement.

The York County district attorney's office told the court that the law was constitutional and that it acted properly in obtaining a temporary and later a preliminary injunction against Gundlach. The preliminary injunction remains in

Robert Eugene Smith, of Towson, Md., co-counsel for Gundlach, said the amendment was unconstitutional for this reason: It allows a court to issue a temporary injunction to stop distribution of printed materials before a hearing determines those materials are obscene.

Smith said the State Supreme Court has ruled such an action illegal in a case involving similar proceedings taken last year against a Pittsburgh movie theatre.

"Under the state law, a district attorney can get an ex parte temporary injunction without showing any underlying circumstances," Smith said, "He only has to show there is a danger to the welfare and peace of the community.

Smith said the law also failed to set a time period within which the court must hear testimony to determine whether the material is obscene. This hearing would be the first opportunity for the defendant to present his case, Smith said.

John T. Miller, assistant district attorney for York County, said the Pittsburgh case cited by Smith was not brought under this act."

Miller also said the state act does provide for a second hearing under rules of civil procedure. Such a hearing must take place within five days.

Asked by Judge William J. Nealon if he felt it was con-

Evan Pugh Scholar Named to Academy

Erwin W. Mueller. Evan Pugh research professor of physics who is internationally known as the inventor of the field ion microscope and thereby the first man ever to see an extent has been named. This is the second outstanding honor that Mueller has received within the past two years in his native country. In the spring of 1968, he was awarded an honorary doctorate at the Free University of West Berlin, where he was extraordinary professor of physics when he left Germany in 1951 to come to the United States. He joined the Penn State faculty in 1952. see an atom, has been named a member of the Deutsche Akademie der Naturforscher — the German Academy of

Invented Microscopes

As the discoverer of two new physical effects, the field ionization of gascous atoms in high electric fields near metal surfaces by strong electric fields, Mueller is recognized as the world's foremost authority on field electron emission and field ionization...

Chartered in 1672 by Emperor Leopold I, the German Academy is widely know as the 'Leopoldina.' It has its seat in Halle, a university town in which is now East Germany.

800 Scientists

As one of its members, Mueller joins a group of some 800 of the world's most outstanding scientists. While most of the members are German, a number are dist-inguished contemporary Americans such as Melvin Americans such as Melvin Calvin, winner of the Nobel Prize in chemistry in 1961; James B. Conant, chemist and former president of Harvard University; P. P. Ewald, crystallographer and former that of physics at the Polytechnic Institute of Brooklyn.

Also Marshall W. Nirenberg, biochemist and Nobel Prize winner; Linus Pauling, biochemist and Nobel Frize winner: Linus Pauling, chemist and twice a Nobel Prize winner: and Frederick Seitz, physicist who is former president of the National Academy of Science and now president of Rockefeller University.

Former Members

Among the list of former members are such famous names as Bohr, Curie, Darwin,

judged obscene, first, Miller said.

'It is, because the statute provides for a second hearing within five days."

Before arguments on the statute itself began, atturneys on both sides debated whether the federal court should hear the case. Smith and his co-counsel, J. Thomas Menaker of Harrisburg, said it should. Miller argued the defendant should try to overturn the injunction in the court that issued it-York

The temporary and preliminary injunctions against Gundlach were issued July 29 and Sept. 3 of this year.

Hearing the case were Nealon and Michael H. Sheridan of U.S. Middle District Court and Judge Albert Mari Sr. of the U.S. Third Circuit Court of Appeals.

Harnessed H-Bomb Closer Than Ever'

There is growing optimism among the world's physicists that they may be able to harness the awesome energy of than they had hoped.

The end result of such an achievement would be the construction of hydrogen reactors, producing electricity from the abundant hydrogen in the

A leading U.S. Atomic Energy Commission expert said that scientific proof that thermonuclear energy can be controlled, should be at hand by 1978.

Now, in light of recent laboratory developments around the world, it appears the proof will be available in a 'significantly shortened' period, another AEC scientist said Friday.

Based on the 1978 timetable, scientists have said hydrogen-powered reactors could be developed "well before the turn of the century." This estimate too, would be shortened now.

ed now.

An indication that the research scientists may be closing in on their goal is a conference now in progress, through Friday outside London, on nuclear fusion reactors, the first international conference of its kind.

may come from another con-ference Sept. 29 through Oct. 3 in the Soviet Union, at Dubna bomb sooner just outside Moscow

The effort by the Soviet Union to control the thermonuclear reaction is triple that of the United States, an AEC expert said, and reports from Russian researchers are expected to provide new data and complete the picture of the current state of the research.

Robert L. Hirsch of the AEC's research program said the cooperation between the Soviet Union and the United States on this research has been "absolutely admirable" and "possibly unique."

The Russians, he said, have been "very free and open" in showing Americans their laboratories and in exchanging technical reports for quick translation.

As for who is ahead, Hirsch answered, "Each of us has a little different emphasis. We lead in a few more."

Hirsch said the progress that is being made toward containing thermonuclear energy is "extremely significant." There is, he said, an "intense, growing optimism that the goal is possibly much closer at hand than people expected."

The academy, founded in 1652, has honored Mueller for his outstanding s c i e n t i f ic achievements. These include fundamental contributions to electron physics arising from his invention, development and exploitation of field emission microscopy. dinary professor of physics when he left Germany in 1951 to come to the United States. When he left Germany in 1951 to come to the United States. The joined the Penn State faculty in 1952. conference now in progress, through Friday outside London, on nuclear fusion reactors, the first international conference of its kind. There is, he said, an "intense, from, on nuclear fusion reactors, the first international conference of its kind. Study Abroad Deadline **Set for Mid-October**

Faculty and staff members interested in applying for grants for graduate study abroad during 1970-71 are reminded that the deadline for filing their applications is Oct. 18.

Forms to be completed as well as information on programs are available at the office of the Fulbright Program Adviser, J. Cudd Brown, professor of political science, 204 Ihlseng.

Inlseng.

Brown pointed out that grants available have been reduced, but last year, out of 14 applications filed, six were awarded grants for study abroad during the 1969-70 academic year. The purpose of the grants, administered through the Institute of International Education, is to increase mutual understanding between the people of the United States and other countries through the exchange of persons, knowledge and skills.

The Institute conducts the competition for U.S. government awards under the Fulbright-

The Institute conducts the competition for U.S. government awards under the Fulbright-Hays Act and the competition for grants offered by various foreign governments, universities and private donors.

Federal funding for the past year was severely cut and the total number of grants reduced from 825 to approximately 275.

Proficiency in Language

Candidates who wish to apply for an award must be U.S. citizens at the time of application, have a bachelor's degree or its equivalent before the beginning date of the grant and in most cases, be proficient in the language of the host country.

Selections will be made on the basis of scientions will be made on the basis of academic and professional record, the feasibility of the applicant's own proposed study plan, language preparation and personal qualifications.

Preference is given to applicants between the ages of 20 and 35 and to candidates who

have not had prior opportunity for extended study or residence abroad, except for the arm ed forces. Creative and performing artists will not be required to have a bachelor's degree, but they must have four years of professional study or

equivalent experience. Applicants in social work must have at least two years of professional experience after their Master of Social Work degree. Applicants in the field of medicine must have an M.D. at the time of applications.

Two types of grants will be available through IIE under the Fulbright-Hays Act: U.S. Government Full Grants and U.S. Government Travel Grants.

A full award will provide a grantee with tuition, maintenance for one academic year in one country, round-trip transportation, health and accident insurance and an incidental allowance.

Travel Grants Available

Travel Grants Available
Countries which are expected to participate in the full grant program are: Argentina, Australia, Australia, Belgium, Luxembourg, Brazil, Chile, Nationalist China, Colombia, Denmark, Ecuador, Finland, France, West Germany, Greece, Icelahd, India, Iran, Ireland, Italy, Japan, Korea, Malaysia, the Netherlands, New Zealand, Norway, Peru, tht Philippines, Portugal, Spain, Sweden, Thailand, Turkey, the United Kingdom and Uruguay.

For holders of grants to Australia, China, Finland, Germany, India, Iran, Japan, Korea, Norway, Poland, Portugal, Spain, Sweden, Thailand, Turkey, the United Kingdom and Uruguay.

For holders of grants to Australia, China, Finland, Germany, India, Iran, Japan, Korea, Norway, Poland, Portugal, Romania and Turkey a maintenance allowance will be provided for one or more dependents.

A limited number of travel grants are available to employer travelt grants.

A limited number of travel grants are available to supplement maintenance and tuition scholarships granted to American students by foreign governments, universities and private donors. Participating countries include France. Germany. Israel, Italy, Poland. Romania. Spain, ,Sweden, Turkey and Yugoslavia.

Romania. Spain, ,Sweden, Turkey and Yugostavia.

The foreign grants are available for Austria, France, Germany, Iceland, Israel, Italy, Mexico, Poland, Romania, Sweden, Switzerland, Tunisia, Turkey and Yugoslavia.

Scientist To Study Bee Venom As Protection Against Stings

of pure bee venom as a possible im-munization for people allergic to bee

stings.

Beginning with a dillution ratio of about 10 million to one. Allen W. Benton, assistant prolector of entomology, hopes to begin injections this month on a team of 14 volunteers from the University community.

munity.
"Our first tests will be with people who are not allergic to bee stings," Benton reported.

Constant Monitor

"We will inject the volunteers as if they were allergic, then maintain a constant monitor on their general health to determine if pure venom has any tendency toward inducing hypersensitivity."

Goal of Benton's experiment, launched four years ago after he almost died as a result of a bee sting, is to prove his theory that bee venom can be a much more effective antigen for victims of allergy than the present practice of whole-body extracts.

"We are in no way questioning the value of solutions made from the ground-up bodies of whole insects," Benton pointed out emphatically. "Right now, they are the most effective treatment we have."

Dangerous Proteins

Dangerous Proteins

"But by employing pure venom, we think we can develop a more potent solution and at the same time eliminate

the potentially dangerous foreign proteins from micro-organisms, pollens, and other body proteins that are also introduced in-

body proteins that are also introduced into the human system as the result of whole body extracts."

Even now, preliminary studies of 10,000 times more effective as an antigen. At the same time, Benton noted, the elimination of foreign proteins contained in whole-body extracts would head off any possibilities of creating new types of hypersensitivity within human beings.

Under the timetable prepared by Benton, volunteers would be injected with the experimental bee venom twice a

the experimental bee venom twice a week for the first month of the program, then once a week for the next three

Clinical Tests

During that time, the volunteers would be kept on constant surveillance for changes in such things as blood pressure, glucose, calcium levels, renal and liver function, and cortisol levels. If and over function, and corrisor levels. He that part of the experiment goes without a hitch, Benton's next step would be to test bee venom on a limited clinical basis with hypersensitive individuals.

The green light for human testing which came from the Division of Biological Standards, National Institutes of Health climages four years of work

of Health, climaxes four years of work and experimentation involving calves, bulls, guinea pigs and mice. Throughout the tests, no unusual or irregular patterns were uncovered in the

Meanwhile, Benton continues to col Meanwhile, Benton continues to collect the bee venom through an ingenious device that makes use of an electrical shock. The collection apparatus, equipped with narrow strips of alternately charged and grounded electrical wires, is placed next to a nest so that the bees will attack it. Each time a bee touches both wires at the same time, she gets a shock, releasing her venom on a piece of handiwrap beneath the wires. The venom is then lyophilized (freeze-dried) until ready for use.

"Most people don't realize it, but the effects of a bee sting an someone who is hypersensitive can closely resemble a heart attack," Benton noted.

Dangerous Allergy

"A rough guess-timate would indicate that about one out of every 500 people in the United States — more in rural areas, less in the cities — are to some degree allergic to bee stings. In many cases, the allergy can be very dangerous."

"In State College alone I receive 10 to 15 calls a year from people asking me what they should do about their allergy. Out of a population of 24,000 here, I know of at least 100 allergy sufferers. That means there's probably another 200 I don't know about."

If successful with this part of the experiment, Benton's next step would be to conduct similar tests using the venom of wasps, hornets, and bumble bees.

University Faces Housing Shortage

fronted with an emergency housing situation. and I would like to ask your help.

"Last spring the University received a petition signed by 1,000 girls asking for permission to live downtown this fall. We granted that permission and then counted on having 1,000 additional spaces. However, when the chips were down, many of the girls who signed the petition and were granted the privilege of living downtown did not complete arrangements and instead kept the rooms they had in the dorritories. Now it appears that we are going to be very short of space and some of the out-of-town women who have been accepted for registration in September may well be unable to attend the University.

"Therefore, I am asking all the local parents if they would consider having their children live at home during the Fall Term. This would help

As a result of Walker's letter, 35 local women have agreed to live at home Fall Term.

The Town Independent Men's Council had been working throughout the summer to help students find downtown housing. With the cooperation of the Chamber of Commerce, homeowners and realtors in town, the TIM housing committee has compiled a list of available rooms and apartments and the rents for each.

TIM also has prepared a booklet for students advising them of what to look for in a lease to determine their liability when the lease expires, and 'ias secured the services of a community lawyer for services that might be required throughout the year.

Trustees Change Requirements

It has been estimated by a member of the

Nearly 1,100 Students To Live in Temporary Housing Study Lounges, Rec Rooms: The Scene Again

dents and all coeds 21 years or older by Dec. 31 spokesman made a statement to The Collegian will be permitted to live off campus.

International Students In Bind

International students are at a disadvantage when it comes to finding housing, due to the time involved in sending mail overseas, according to Dante V. Scalzi, director of the Office of International Student Affairs. He explained that although international students apply for residence hall assignments in the same way as other students, they are assisted by his office in securing downtown housing. He said that 85 to 90 per cent of these students are graduate students who prefer downtown hous-

Scalzi said that last year at least temporary accommodations were found during orientation week for all international students despite the housing shortage.

"It looks in general as if the situation is going to be just as bad this year as last," he said. He added that a number of new apartment units may open in September, but the high cost will make it necessary for international students to become acquainted rapidly and find others with whom to share apartments.

BSU Issues Letter

Responding to a rumor that 33 per cent of the lacks who were admitted under the program for the disadvantaged, would not have housing for Fall Term, the executive committee of the Black Student Union issued a letter Summer Term to the officials involved in the program expressing their disgust with the situation.

The letter stated:

"It is deplorable that this University once again demonstrates its unwillingness and inompetence in preparing this institution for

"The BSU will not stand by and let this inhumane treatment of incoming blacks be

" 'Chickens do come home to roost.' "

The program for the disadvantaged was implemented through the Office of University Programs for the Disadvantaged as a result of one of the 13 demands presented to Walker by BSU last year. Under the program, each college of the University was asked to set up a committee to recruit disadvantaged students.

Five in Staging Areas

In response to BSU's letter, a University

explaining that at the time the program was established last spring, arrangements were made for housing students in residence halls. Since it was not known at that time how many of the students would be men and how many would be women, an estimate of 60 women and 140 men was made.

"Of the students offered admission through the program 65 were women instead of the 60 that had been predicted. Of these 65, 60 have been assigned to rooms and five have been assigned to staging areas until rooms become available during the first week or second week of the term.

"All men who have accepted admission to the program and have requested housing have been assigned rooms in the residence halls," he said.

Walkertown Lives?

Last year's housing shortage resulted in a student protest on Old Main lawn which took the form of a tent and wood shack village -

Students gathered on the lawn listening to various bands and speeches for the first week of the term until Walkertown settled into a residential area for homeless students.

Some students said they believe Walkertown will come to life again this fall. Don Paule, TIM councilman and Undergraduate Student Government congressman said he heard from a "good, reliable source" that 300 to 500 students will be without housing at the beginning of Fall Term. He said he believes that some of them will resort to Old Main lawn until accommodations can be found.

A member of the Students for a Democratic Society said she, too, believes that Walkertown will come to life Fall Term.

"But no plans have been made by SDS to organize Walkertown. If there is a Walkertown, it will be spontaneous. It happens like this: Someone will be sitting on the wall on College Avenue, and someone else will come past and ask the first person if he has a place to live. He will answer no. Eventually, a lot of people will get together like that and set up tents to live in Walkertown," she said.

She said that last year SDS did not organize Walkertown, but only provided the format and

"If there is a Walkertown, we haven't created it. The University has," she said.

The Council represents the men in the residence halls and helps to formulate student rules. Spring Term MRC passed an extended open house policy permitting men to have female 'guests in the'r residence hall rooms during specified hours

MRC is comprised of four smaller councils set up within each living area. Selected

Activities—Something for Everyone

(Editor's Note. On pages six, eight, nine and ten of today's Collegian are printed summaries of the functions and operations of many of the campus organizations. All of these organizations are open to freshmen and new upperclassmen.)

USG Insures Student Autonomy; Acts on All-University Matters

The Undergraduate Student Government speaks for the entire student body and coordinates the functions of the student community.

ates the functions of the student community.

As a representative government composed of an executive, legislative and judicial branch, USG insures their right of self-government. USG is the students' formal representative to the University administration and is responsible for promoting student welfare.

All executive powers of USG are vested in President Ted Thompson. Presiding over each session of Congress. Thompson may veto but not vote upon legislation. Aron Arbittier, USG vice president and Ted Itzkowitz. USG treasurer share executive duties with the president and are voting members of Congress.

Members of the executive branch are elected in the Spring Term of each year by the entire

Members of the executive branch are elected in the Spring Term of each year by the entire student body.

Congress, the law-making body of USG, is composed of ex-officio voting members and voting representative members. Ex-officio members are the presidents of lesser campus governments and the class presidents. Elected representatives of Congress are chosen by the

ratio of one for every 800 students in each living area. Congressional elections, during which students vote for representatives according to area, are held in the Fall Term of each year.

The USG Supreme Court holds final judicial powers. A Supreme Court chief justice is appointed by the USG president to serve a one year term. The rest of the court is composed of justices whom are both appointed and elected by the lesser student governments.

A large commission system which researches, develops and investigates subjects to be considered by Congress is an integral part of USG. Commissioners are appointed to USG and make periodic progress reports in their area of concentration.

All meetings of Congress at which business is transacted are open to the public. According to the USG by-laws, a member of the gallery may have the floor yielded to him for three minutes by a member of Congress.

USG seeks and encourages student participation from the entire undergraduate community. Freshmen, particularly, are being sought to fill vacancies in all phases of student government.

Artists Series

THE PENNSYLVANIA BALLET will be this year's first presentation of the Penn State Artist Series. The company

Fraternities Combine Tradition With Present

Plato might have been uncomfortable sitting at an Interfraternity Council meeting, but the governing body of the University's 55 fraternity chapters combines present needs with tradition, for "effective governing, management and policy formulation" of today's Greeks.

IFC governs by visualizing the fraternity as "a brotherhood of men of varying interests, joined together for fellowship, mutual cooperation and individual advancement."

Address

Make Check Payable to State College Jaycees

Surveillance of both academic and social fraternity procedures is maintained by IFC. According to its handbook, IFC "demands that each of its fraternities be actively involved in achieving and maintaining a c a de mic respectability." Pledging practices and social events are to be conducted in the manner prescribed by IFC. Infringement on these standards can result in academic and social

result in academic and social probation for the fraternity.

Orientation Week and the first sweek of classes. Tickets may also be purchased at Rec Hall during registration.

and individual advancement. IFC sponsored social events often stem from philanthropic projects undertaken by the council. A yearly drive is con-

AWS Seeks Equal Rights For All University Women

MRC Aids Dorm Men

If the men in the residence members of these councils halls have a gripe, they can serve on Central MRC which call the Men's Residence Counhandles problems pertinent to

all living areas.

Government is not MRC's only concern. It also sponsors social events, radio sales and participates in Spring Week activities.

There was a Spring Term controversy when one of the smaller councils sent a coed to sit on central MRC. But the council voted that this was legal and she was allowed to retain her seat.

The Association of Women Students represents all women students at the University. This fall, AWS has achieved its goal of eliminating hours for women residents.

According to Nina Comly, AWS president, the organization serves a two-fold purpose: that on the University level, which represents women on current issues and that which provides services on the local level such as representing women living

Concerning the abolition of restricting hours, Miss Comly said that parents must realize and accept the fact that the University is becoming more liberal.

Previously, women students were required to return to their residence halls at its given closing time, or they could use the After Hour Service which permitted them to enter the building at a later time. However, AHS continued to restrict hours. Now, following the aims of AWS, women do not have to return to their residence hall at any definite time.

Residence halls will close at 11:30 p.m. on weekdays and 1 a.m. on week-ends. Residence hall keys will be issued to the women in order that they may enter at any time.

The role of AWS is described as "cultivating an attitude to prepare women to govern themselves responsibly." This governing body is the AWS Senate. It is comprised of senators who are elected by students in each residence hall, and a council board consisting of officers and ex-officio members.

Each residence hall will also elect its own president who will represent students living there.

Another new addition this year will include representation of women students living off-campus.

According to this plan, representation can be more widespread and thorough, and many problems arising among women students can be solved more readily and efficiently. tannonnanana pantananan kataman katama

SDS Splits into Factions

Radical Left Turns Strategy Toward Working Class, Blacks

CHICAGO (AP) — The radical left, torn within and threatened from without, is groping for new strategies and new allies as it gathers again on the nation's campuses.

One result, movement sources say, could be a mark-ed de-emphasis on campus confrontation in favor of ac-tions intended to unite white radicals to racial and working class struggles.

Rent strikes, marches in support of welfare mothers, drives for day care centers and tax boycotts are among the tactics under discussion.

Another tactic is a renewed emphasis on Vietnam, an emphasis that would link the war to a host of related issues, including inflation and imperialism.

Another result, sources say, could be an increased use of violence, particularly in the streets away from the more wary campuses.

"It's time for us to fight," Mark Rudd, a national secretary of the Students for a Democratic Society. Chicago version. said. "The Vietnamese are fighting, the blacks are fighting and now we have to fight."

Rudd speaks for one element in SDS. The dissensions that long racked the organization, the young left's focal point, have finally shattered the last vestiges of any coherent organizational facade. organizational facade.

Rudd, who played a highly publicized role in the Columbia publicized role in the Columbia uprising of 1968, is now prominent along with former SDS National Secretary Bernardine Dohrn in the Weatherman faction that rules the old SDS national office in Chicago. The "Weatherman" name comes from a Bob Dylan song that goes, "You don't need a weatherman to know which way the wind blows."

The Progressive Labor (PL) faction has set up shop in Boston where it also calls itself SDS.

Still another group, the Revolutionary Youth Movement (RYM II), is operating from the West Coast after. splitting with Weatherman on doctrinal and tactical grounds.

The divisions, one long-time

Students Test **Paper Dishes**

Aside from the usual admission receipts and housing assignments, several University students were mailed an additional surprise this summer — a package of paper dishes and plastic utensils.

A total of 45 students were chosen by the Department of Housing and Food Services to try out the dishes at home and express their opinions on the use of disposable dishes in campus dining halls for the breakfast meal.

The idea originated due to the likelihood of a labor shor-tage in the coming year.

"We're finding it more and more difficult to employ personnel," Robert C. Profitt. associate director of the Department of Housing and Food Services said.

Housing officials combed the State College area this summer for potential food service employees. These efforts have prevented a labor shortage for the time being. If the shortage does reappear however the disposable service will be used

Job Shakeup **Suddenly Hits** Staff at OEO

WASHINGTON (AP) — The Office of Economic Opportunity has been hit with a sudden shakeup of headquarters staff personnel. More than 100 persons are without specific assignments and unsure if they will have jobs at all when the dust clears.

Sources within the antipove ty agency said many of the higher officials without specific duties, some making salaries of \$15,000 to \$20,000, had been connected with OEO's more controversial programs.

A memorandum, dated Wednesday and signed by OEO Director Donald Rumsfeld. disclosed the shakeup to the more than 1,000 employees of more than 1,000 employees of the anti-poverty agency's head-quarters in Washington. The memorandum was accom-panied by a list of some 900 names of personnel who will have definite new assign-

ADVERTISING POLICY

The Daily Collegian will accept local display and classified display advertisements up to 4 p.m. two days before the ad is to appear in the paper. No advertisement will be accepted after this deadline.

Classified advertisements are accepted on a cash basis only and must be received by 10:30 a.m. the day before the ad is to appear.

Office hours of The Daily

Office hours of The Daily Collegian (Basement of Sackett, north wing): 9:30 a.m. to 4 p.m., Monday through Friday a.m. to 4 p.n through Friday.

movement figure said, "could produce a tendency to infighting. It could produce a competition to see who is the most militant."

Wisconsin, where the chapter, at least for now, is remaining aloof from national factional struggles. "We'll be able to try a lot of different things."

"We'll be much more flexible this year," an SDS member said at the University of expected to work for greater

regional and local strength and focus on specific issues as they arise in their own communities.

The Weatherman faction believes in street action and is allied to politicized street gangs such as the Young Lords

Like PL and RYM II,

Weathernan wants to involve the working class in the move-ment. But unlike the others, one source said, Weatherman "thinks the way to do this is

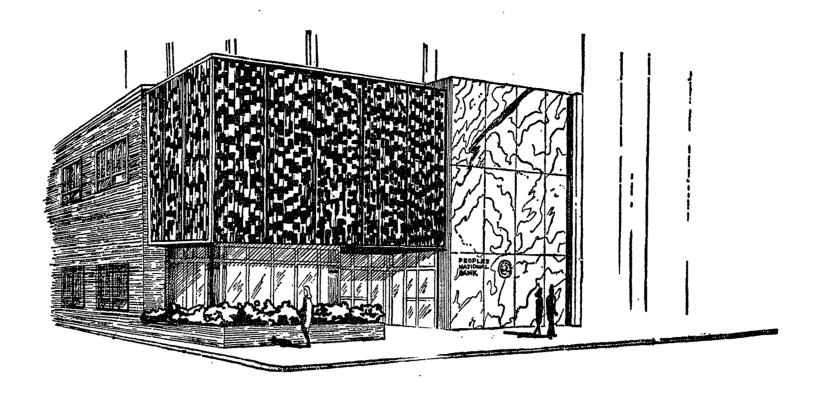

that emulates what they take to be tough, working class teenage behavior."

A major test of Weatherman leadership will come in Oc-tober. That is when SDS is

The campaign is part of a tivities designed to focus at-tention on issues raised by the federal trial in Chicago of eight men, including key movement

personalities Tom Hayden, Rennie Davis and Abbie Hof-fman.

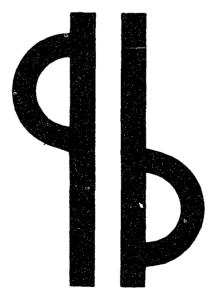

The eight are charged with conspiracy in the disorders accompanying the 1968
Democratic National Convention.

Bull Sessions, Jammies

FaithGroupsBusy

Campus religious organizations not only offer fudents guidance and worship services but also sponsor many activities ranging from dances to weekend retreats.

The various organizations include the Catholic Newman Student Association, the Wesley Foundation, Hillel and the Student Lutheran Association.

The Wesley Foundation is planning an opening jammy for 8:30 p.m. Wednesday, in the Wesley Foundation recreation room, 256 E. Col-

Other activities throughout the year will include film festivals, social problems studies, service sororities and fraternities, week-end retreats, and picnies. Students can receive one credit for singing in the choir. In each residence hall living area, groups will meet for discussion periods and "bull sessions." This cear, the Foundation would like to start a "groovy thing" such as a coffee house where students can meet.

Services are held at 11:15 a.m. every Sunday in the Helen A. Eakın Eisenhower Chapel. Presiding ministers are Ned Weller, Mac Saddoris, and Ken Barnes.

The Newman Association is looking for students interested in joining the choir, organists and guitarists to perform for folk masses which will be held bi-weekly during the year.

They also sponsor socials, movies and discussions. The Social Action Committee visits places such as rest homes, orphanages and the Rockview State Penitentiary.

Interested students may contact Newman

President Ken Pidgeon, or the chaplain, Father Leopold Kuil, at 207 Eisenhower Chapel.

There are three masses daily at 9:30 a.m., 11:10 a.m., and 5:30 p.m. in Eisenhower Chapel. An 11:15 mass is held in Schwab Auditorium. On Sundays there are eight masses said campus-wide. Confessions are heard before the masses.

Hillel will hold Yom Kipper services tonight at 6.30 at the Hillel Foundation, 224 Locust Lane. They will spousor a free mixer at 8 p.m. Wednesday at Hillel.

Wednesday at timer.

Beginning Oct. 12, there will be a lox and bagel breakfast every Sunday with a \$5.00 annual membership fee. Beginning Oct. 13, Hillel will serve supper every Monday night. A speaker and a discussion period will follow.

During the year, students will receive a weekly newsheet. Israeli folk dancing will be held every Wednesday evening.

held every Wednesday evening

held every Wednesday evening.

The Lutheran Student Association is planning an open house at 8 p.m. Wednesday at Eisenhower Chapel, followed by visits to the Rev. Aurthur Scyda's parsonage, the student lounge at the Grace Lutheran Church, Luther House, and the Jawbone coffee house. Then at 8 p.m., Sept. 28, a dance will be held at the student lounge at the Lutheran church.

In each residence hall living area, miniconnsel meetings and counseling hours will be held. The times will be posted.

Services are held at 10:15 a.m. and 4 p.m. every Sunday in Eisenhower Chapel and at 11:45 a.m. in the Grace Lutheran Church, Coffee hours are held between the two morning services.

"The Crucible" on Agenda

Full Play Season Ahead

Opportunities for the would-be actor and the avid theatre-goer are numerous on the University Park campus. tries from colleges throughout the country to appear at the first American College Theatre

University Park campus.
Among the various drama groups which will stage productions here this year are the University Theatre, the Thespians and the University

Readers.

The University Theatre, in conjunction with the Theatre Arts Department, produces several major productions each term which are open to students and the general public. Among this year's offerings are Arthur Miller's "The Crucible," Sophocles "Medea," and Shakespeare's "Love's Labor Lost." Past productions included Moliere's "Love's Labor Lost." Past productions included Moliere's "The Miser," which was chosen from more than 200 en-

The University Theatre also produces the Five O'Clock Theatre and the Experimental Theatre. The Five O'Clock Theatre provides students and faculty with the opportunity to produce and present original one-act plays. The Experimental Theatre provides an opportunity to work with new or proving one-act plays and to unusual one-act plays and to develop new and different ap-proaches to old concepts.

All University Theatre productions are open to students. Auditions will be announced.

The Thesplans present two in the Willows' will be musical productions each year.
The first of the musicals is the area public schools.

"Superman," a saturical com-edy. Membership is granted to students who have worked on two or more shows, although two or more snows, among any interested student may try out for the east or work on the out for the cast or work on the crew. Auditions for "Superman" will be held from 6:30 to 9:30 p.m., Sept. 27 and 29 in

The University Readers are organized to give those students interested in reading aloud, an opportunity to perform. Tryouts, which are open to all students, will be held "around the first of October," according to sponsor J. A. Wigley, associate professor of speech. A production of "Wind in the Willows" will be

Panhel Speaks for 25 Sororities

The Panhellenic Council, representing 25 campus sororities, will hold registration for its Fall Rush on Tuesday, 10 a.m. to 6 p.m. Women who are third term or above are eligi-

ble. Panhel executives especially urge transfer students from Commonwealth Campuses or other universities to act immediately, "because

their time on campus is shorter than women who are here for four years." Registrants will be exposed to each of the sororties by attending informal parties which begin Wednesday. Final bids will be issued Oct.

The University has one of the largest Panhel Councils of any University in the country, according to Panhel President, Lynn Moeller.

Duke Ellington

entertainment in Rec Hall for the 1968 Fall Homecoming. The concert was sponsored by the Penn State Jazz Club.

TIM Council Serves Men Living Downtown

Thousands of Penn State students each year converge on the multitude of half-finished apartment buildings, b at-infested attic rooms and recon-verted and subdivided closets. rallying behind their battle cry, "It's the only way to live." Town Independent Men's

Council is the governing body for about 8000 "townies." Its declared purpose is 'to organize and unify the in-dependent men living offcampus.'

During the past several years, TIM has been expanded to represent all men and women, both undergraduate and graduate, living off-campus and not affiliated with a fraternity or sorority.

TIM Council consists of 21 councilmen-at-large e l e c t e d during the Fall Term by town students. Three officers head

the council: President Rick court over any legitimate com-Wynn (8th-zoology-Harrisburg); Vice President Jeff Lob b (9th-accounting-Media): Secretary-Treasurer Dave Rhoads (8th-secondary education-Strasburg) education-Strasburg).

The TIM office, located at 203-G Hetzel Union Building, is open daily from 9:30 a.m. to 5

p.m.

TIM has been working throughout the summer in an attempt to case the expected fall Term housing shortage. Wynn estimates that 150 students who visited the office during the summer still have not found accommodations.

Students are encouraged to bring any housing problem to the TIM Housing Committee.

The Legal Affairs Committee can held advise students about their rights. TIM plans to help students take landlords to

Jazz Club Blends **Music and Politics**

Officers of the Penn State Jazz Club promise a program that will be up to the minute with more than the best possible concert entertainment from the exciting world of rock and

"The temper of the times calls for political awareness in every area of our daily lives," Donn Bailey, faculty advisor to the Jazz Club, said.

Today's Jazz Club is socio-politically active, according to Bailey. The new role was adopted last winter, when Jazz Club members defied an injunction signed by the Administration, banning the sale of "The Water Tunnel," an underground

Jazz Club leaders are pleased with this "more worldly role." adopted by an organization that was "entirely a musical entity," Bailey said.

"It's fine to pop your fingers to the music, but we must be copping liberation in the process," Bailey added.

A Jazz Club booth will be in operation on the ground floor of the Hetzel Union Building tomorrow. Membership cards will be on sale there throughout the week. Membership, which costs \$3 for the year, entitles members to discounts on tickets for all Jazz Club concerts. Club members are also assured of first choice of tickets, and are initially guaranteed a better choice of seats than non-members.

Jazz Club leaders are interested in greater participation in the planning and administration of the organization by members, especially those of the freshman class. Informal organizational meetings are held weekly, giving an interested person an opportunity to actively participate in the planning of major concerts, as well as the numerous activities in other

The politically active role adopted by the Jazz Club will be continued this year, according to Jazz Club President, Wally Grondzik.

"Music and politics are virtually inseparable today, in light of the serious new directions being explored by today's rock and Jazz musicians," Grondzik said.

A schedule of this year's series of meerts is not yet available. The program will include "an even mixture in format between rock and jazz." according to Grondzik. He added that tentative plans are underway for an early October concert by the jazz-rock ensemble. Blood Sweat and Tears.

SDS Upholds Chapter Identity

Students for a Democratic Society: a contact racism at 8:30 p.m. Wednesday in the Hetzel Union Building Assembly Room. Speakers will

According to former co-chairman Diane Weiss, almost every variation of leftist political thinking is represented in the campus SDS chapter, which is a chartered student

chapter, which is a chartered student organization.
Widespread national publicity followed a split in the national SDS organization which took place at a national SDS convention held during the summer in Chicago.

"Each SDS chapter is autonomous we don't follow SDS national per se," Miss Weiss said. She also stated that one of the chapter's main contacts with the national office is for the purpose of obtaining literature.

Election of a new SDS chairman will be held

soon after the term begins.
SDS will sponsor a panel discussion

include Donn Bailey, adviser to the Black Student Union (BSU), Jeff Berger, former SDS chairman, and Steve Haimowitz, chairman of the White Liberation Front.

James Petras, assistant professor of political science, will discuss a recent trip to Cuba at 7:30 p.m. Sept. 30, in the HUB Ballroom.

At 9 p.m. Oct. 1, SDS will sponsor films and a discussion in the HUB Assembly Room.

An open meeting will be held 7:30 p.m. Oct. 2 in 214 HUB.

Plans are being made for a teach-in on repression, to be held at 8 p.m. Oct. 3, in 102 Forum. SDS, BSU and the New University Conference (NUC), a faculty group, will be represented.

By The Association Press Services
The Organization of Stadent Government Associations (OSGA) was initiated in 1960 to help involve the Com-

monwealth Campuses in the University system. After nine years of organizational procedure and growth, OSGA has become not only the branch campus students' link with University Park, but also it has emerged as an organization bent on placing itself in the mainstream of University politics.

"People are becoming aware that there actually is an OSGA." Merle E. Campbell, dean of student affairs for Commonwealth Campuses, said, "It's a visible factor, and it has become quite strong '

The locations of the Commonwealth Compuses make them valuable vehicles for carrying out OSGA proposals.

"The OSGA is now involved with social problems, beyond the petty problems of moving a vending machine or having a jammy." Ralph L. DeShong, assistant dean of student affairs tor Commonwealth Campuses, said.

When Ron Batchelor assumed office as president of OSGA last May, he appointed a Race Relations Committee to attack the problem of racial imbalance at the University. He appointed a Housing and Orientation Committee to investigate the possibility of Commonwealth Campus students waiving their residence hall committments when they transfer to University Park. The committee will also be involved with the Orientation procedure for transfer students.

"These are crucial issues to students and citizens of Pennylvania," Batchelor said. "They magnify the intent and role f Commonwealth Campus students to help soive some real roblems of the day."

ACTRESS RUBY DEE presents readings of black-oriented material during the Black Arts Festival, held Spring Term.

The Black Student Union will be governed this Fall by an executive committee which replaces the former one-man rule. The reorganization plan was adopted during Summer Term.

BSU Committee Sets

'Black Unity' As Goal

replaces the former one-man rule. The reorganization plan was adopted during Summer Term.

BSU, formerly the "Douglass Association," is an organization open to all black students. According to BSU leaders, the purpose of the organization is "to unite the black community on this campus."

The new structural policy has been called "the embodiment of the concept that in this political day and age, one person is incapable of representing a body of individuals," by BSU faculty sponsor, Donn F. Bailey.

"A collective body of individuals needs collective leadership for effective administration of the programs of that body," Bailey said.

BSU executive committee will consist of five chairmen: a communications within and outside the University community: a cultural activities chairman who will direct projects intended to promote interest in black culture among all members of the University community: a counselling chairman who will aid in the recruitment of black undergraduate and graduate students, and in job placement; a financial chairman who will handle BSU funds: and a political activities chairman who will initiate political activities chairman who will initiate political activities relavent to the University black community.

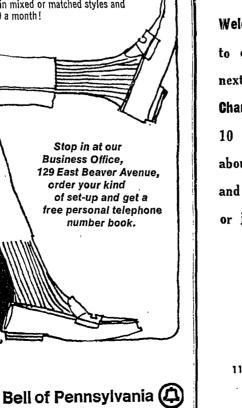

Bailey said that BSU intends to present a series of "socio-cultural events throughout the year, to further the scope and availability of an exposure to black culture for all students." The highlight of BSU's cultural program last year was a week-long Black Arts Festival, held in May. All facets of black politics and culture were represented at the festival by blacks prominent in their respective fields. Among the guests were Rep. Adam Clayton Powell (D, N.Y.). The James Brown Revue, and The Arthur Hall Afro-American Dance Ensemble.

The Big Game of Fall Sports And the Hero

By DAN DONOVAN Assistant Sports Editor

It is a warm night and the gridiron action has been rough all evening. The quarterback takes the snap from center and steps back to pass. An ourushing tackler escapes a block, but the nimble quarterback steps aside to avoid being thrown for a loss. He arches a neat spiral at the left end who is darting for the end zone. The pass receiver stretches out, gathers in the ball and trots into the end zone where he is soon mobbed by his happy teammates.

What game could this be? Is it the Orange Bowl? Is Joe Namath the quarterback? Is the onrushing tackler Mike Reid? Is Bob Hayes the pass receiver?

No, this game is not of national prominence. It is only one of 13 being carried on simultaneously on Penn State's lighted intramural football fields during an ordinary Fall Term evening.

Such a game gives Joe Ordinary, who played third-string quarterback for his Class C high school, a chance to pretend he's Namath. Bill Mediocre, a five-feet tall 200-pounder pretends he's a hard charging lineman, while Tom Skinny, a 90-pound weaking, gets to show his blazing speed.

The game is only touch football, but from the way it is played on the intramural fields. you would think it was for the national champion-

ship.

Dormitory teams live for the chance to beat the floor above them and if they lose, a shaving cream and water balloon attack is planned. Fraternities ache to get even for the loss last year and for the way they were shown up during Spring Week, Crowds gather for many of the games and a few girls come to see their favorite he-man drop a touchdown pass.

DONOVAN

More than 200 teams with 4.791 players entered Penn State's intramural football last year, playing 606 games, yet this is only a small part of State's intramural schedule.

Seventeen different activities are included on the yearly agenda, making State's program one of the biggest and best in the country. Besides touch football the average student can participate in golf (medal or eam play), tennis singles and doulbles, bowling, basketball, wrest ling, handball, paddleball, volleyball, swimming, badminton, soccer, horseshoes or track.

There are four divisions of play, dormitory for resident hall students, fraternity for the Greeks, graduate for graduate students and independent for anyone else. Each division names a champion in each sport at the end of the season.

The organizer of this immense project is a talkative man by the name of Clarence M. "Dutch" Sykes. From his office in room 206 Rec Hall, Sykes scheduled more than 5,000 contests involving more than 50,000 participants last

He explains the philosophy of his department that for 39 years has organized intramurals. "Our basic purpose," he said, "is to provide for the ordinary student as broad a program of sports activity that is possible with our facilities and staff.

"We try to plan a program that appeals to the widest possible interest," explained Sykes. "That way we get a lot of competition and spirit."

The director believes that the intramural program is one way a new student can avoid the feeling that he is nothing more than a number at the university.

"Some of the students come from small schools and when they arrive at Penn State they feel lost." Sykes said. "Intramurals give them a chance to belong to a small group and develop ties with fellow students. The teamwork and competition is a great way to develop some sort of

unity. Another objective of the intramural program is to develop some skills in the student higher than that or-dinarily required by physical education classes. That is why the department emphasizes lots of individual rather than team sports.

"While the team sports (football and basketball) are the large ones," Sykes said, "most of the sports we sponsor are individual activities which the student can continue after graduation."

Most students don't think about "identifying with a group" or "developing skills" during intramurals. All they know is that accing a serve makes them feel like Rod Laver, sınking a 30-foot jumper is one of Hal Greer's tricks, and well, Arnold Palmer himself couldn't have played that hole any better.

(Continued from page one)

The Middies first score came after a blocked punt gave them a first down on State's 15. Fullback Dan Pike scored from the three. Halfback Don Marchetti sprinted 28 yards for the second Navy TD, in the final

Cooper showed some flair in the fourth quarter drive which brought the Lions their last touchdown. The junior completed three

Film highlights of five of yesterday's games—including Penn State-Navy—will be shown on many ABC network stations today.

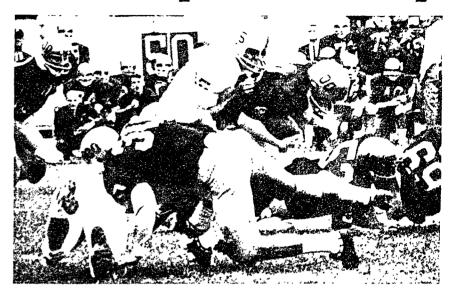

The other games are USC at Nebraska, Washington at Michigan State, Houston at Florida and Morgan State at Grambling.

Consult local stations for times.

key passes, then sent fullback Don Abbey over the goal line, making the rout 45-14.

Marchetti plunged two yards for Navy's last score with 18 seconds left and McNallen passed to Jeff Steelman for a two point conversion. The final score was not really as close as it may sound - State was never threatened.

Paterno summed it up this way, "We came down here to win by one point, so I'm satisfied. Anytime we win I'm satisfied."

Onkotz Stops

DENNY ONKOTZ (35) Penn State linebacker tackles Navy halfback Dan Pike (48). Onkotz returns from last Navy Ground Game year's defensive squad which ranked third in the nation.

his ferocious desire to win. When a national some exceptional teams produce two such television audience saw him nail Kansas quarheroes in one year. But you have to go a long terback Bobby Douglass for two huge losses in the Orange Bowl to open the way for State's last minute victory, Reid's fame was assured.

> After leading the team with 56 unassisted tackles and fumble recoveries, Reid was a second-team All-American selection of the AP and Newspaper Enterprises Association. This

The third Nittany Lion mentioned as an All-American possibility is halfback Charlie Pittman. If his ankles hold up Pittman should be a special kind of running back. He has such great ability at breaking tackles and such agility and speed that people are comparing him to O. J.

Record Setter

Pittman set a school record for touchdowns in one season with 14 last year with one coming in the Orange Bowl. He has 20 career touchdowns and needs only five more to break the record held by Lenny Moore, one of his heroes. Wrapped around the 14 scoring plunges were 950 yards gained and 14 pass receptions kickoffs for 110 yards.

Those statistics earned Pittman AP and United Press All-American honorable mention. If his ankle stays sound he could be in the serious running for another honor at season's

SportScene Football Fans

Forget Quickly

Collegian Sports Editor Football fans must have very short memories. Like the proverbial elephant or people who borrow things with a promise to return them later. They never remember and the football fans don't either.

Three seasons in the past Penn State was struggling to 5-5 record and everyone — people who loudly claimed to be Nittany Lion partisans - was griping about the schedule. State got stomped by Michigan State, UCLA and Georgia Tech, all teams which finished in the Top 10, as it played a schedule rated fifth toughest in the land.

Then the griping began. Those who wanted a winning team at any cost said Penn State should no longer try to compete with the Mid-West, the Pacific Coast or the South. 'We should play schools that are more in our class," the self-appointed experts said. Then they named names like Carnegie Tech and Temple. "Them we can beat," was the

Now that Penn State has had an undefeated season and appears capable of beating almost any team in the country. people are griping about the schedule again. But now the

complaint is different. The fans want lofter competition. Not z single pre-season choice for the Top 10 decorates

the Lion's schedule, which has been called the "softest" of any major team. So now everyone forgets what he was saying three seasons ago and claims that the schedule isn't tough enough. They want State to play teams from the West Coast and the South.
Head coach Joe Paterno

hears about State's schedule a lot. In fact he hears about it everywhere he goes. And Paterno has a very sensible answer for those who make snide comments about the powerful Lions playing Ohio

McKEE and Boston College. "Until no said, "it's the toughest schedule in the country."

That's probably the only appropriate answer to people who raise complaints before the season has gotten un-"We might go down to Navy and find that they have

the best team in the world." Paterno said. "They have afine program. Colorado and Kansas State have fine programs. There's no reason they can't have fine teams.

'How can you evaluate a team before it's played a

game?" he continued. "Those people don't know what they're talking about."

Even though there are no glamour teams on State's schedule, it could still prove a rugged card. Teams like West Virginia and North Carolina State are just working into the national picture. A win over Penn State would mean instant recognition, and they could easily prove to be tougher than many fans suspect. So forget about Alabama and Texas and Ohio State and

watch out for Colorado. At the end of the season State may have worked through a more rugged schedule than anyone would have thought back in September.

Colorado Boasts Solid Offense

b. senior has speed for his and averaged 4.5 yards carry last season. phomore Ward Walsh (6.0, is rated an excellent described by the season of the season o

QB Anderson Rated Good Scrambler

When Colorado brings its highscoring football machine to University Park next Saturday, a lot of its success will depend on quarterback Bob Anderson.
The blond senior has a list of The blond senior has a list of credentials as long as his passing arm and as impressive as his strong legs.

The 6-0, 208 pound Anderson beat out Kansas' Bobby Douglass for honors as the All-Big Eight quarterback last season as he led his team and the conference in total offense. The fleet quarterback was such a good scrambler that he led the Buffaloes in rushing. For the past two seasons he has been the nation's top rushing quarterback.

Anderson has averaged over 5.3 yards per offensive play in

Brown (Syracuse – 1956), Jim Brown (Syracuse – 1956), Tom Harmon (Michigan – 1940) and Doak Walker (SMU – 1949). Nagurski (Minnesota –

1929), the only man to receive a significant number of votes at two positions, actually won out both at tackle and at fullback. However, he was placed at tackle alongside Leo Nomellini (Minnesota — 1949). Wilbur ''Fats'' Henry (Washington and Jefferson -1919) and George Connor (Holy Cross-Notre Dame - 1947).

The outstanding guards, according to the SPORT poll. were Bob Suffridge (Tennessee - 1940), William "Pudge" Hef-

Features Sherwood to Patrick

Vets Lead West Virginia

season. "If we play up to our potential," tailback Eddie Silverio said, "we can whip them all, including Penn State." The reason for such confidence is the return of 20 starters and a red hot offense, from a team that was 7-3 last year

The Mountaineers are already pointing towards their October 11 encounter with the Nittany Lions. Coach Jim Carlen said, "Penn State has become our biggest rivalry game." The Mountaineers are still smarting from the 31-20 loss to the Lions last year when they threw one of the biggest scares into State's undefeated season.

But there will probably be more than revenge on the minds of West Virginians. State will be the only high-ranking team on the Mountaineer schedule and a win would vault them into the national spotlight as a football power.

The Mountaineers have the physical ability to ambush any team in the nation. Last year quarterback Mike Sherwood went to the air to break 14 West Virginia passing records, throwing mostly to West Virginia passing records, throwing mostly to split end Oscar Patrick.

This year Carlen has installed a new "southern-type" option offense and with it a solid running at-

taineers used this ground game to romp, 57-11.

The Mountaineers have been known to play a strong defensive game and this year will be no excep-- 10 of last year's starters return to make them one of the best around.

Comenting the defense will be everybody's preseason All-American middle guard Carl Crennel. West V rginia's entire defense will be built around

1968 RECORD - 7-3 TOP PLAYERS - MG Carl Crennel, QB Mike Sher-

wood VS. PSU — October 11 at University Park 1968 SCORE — PSU 31, West Virginia 20 (Penn State leads series 26-7-2)

the 6-0. 220 senior. "He can change the whole complexion of an offense," said Carlen.

Defensive tackle George Henshaw (6-1, 225) is another stalwart on a quick defensive line. Henshaw is a consistent performer with a lot of hustle.

The offense features legions of fine runners and pass receivers. Back to eatch a lot of Sherwood's passes will be split end Patrick. This senior finished

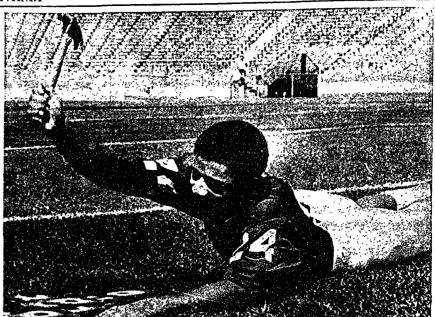

passes for 190 yards against Penn State.

Either Silverio or Bob Gresham will start at tailback for the Mountaineers and either one will give them an elusive runner. Fullback Jim Braxton (6-1, 226) was last year's leading rusher and an outstanding pass receiver, but the best thing he can do is block. The triple threat from Braxton is one of the major reasons Carlen will go with the option offense.

Penn State fans have been hearing about a weakness in the offensive line a lot lately and that is the only place Carlen can find any weakness with his squad, but it is only the minor problem of depth. "Our biggest problem will probably be lack of depth in the offensive line," he said. "The starters are adequate but we're thin on reserves.'

The Mountaineers have come close to upsetting the Lions the past two years and they feel State cannot be lucky a third time. The running of Braxton, Silverio and Gresham will give State a rugged test of its vaunted defense, and the Sherwood-Patrick pass combination is one of the best in the country.

State will have to have a thinking defense to decide who will get the ball in the Mountaineers option offense. It could be no easy task.

Record Smashing Penn State Star

SMASHING THROUGH plastic recordings as easily as he busts enemy defenses, Lion halfback Charlie Pittman symbolically demonstrates that he has a good chance of breaking several records this year, among them, career touchdowns.

Orange Strong After Off Year

With a coach named Ben Schwartzwalder and players with names like Rich Panczyszyn, Marty Januskiewicz, George Jakowenko, Lou Gubitosa, Tom Hernanowski and Ted Lachowicz, Syracuse will give the announcers fits in 1969. With hordes of returning lettermen and some promising sophs, they will also give a lot of opponents a bad time. Even with a pronouncing guide, teams will have trouble.

Last year the Orangemen got away from their famed running attack and stumbled to a 6-4 recrod. This season Schwartzwalder will rely heavily on fullback Al Newton and tailback John Godbolt. Januskiewicz is a 215-pounder who gained more than 800 yards for the unbeaten frosh last year and he figures heavily in attack plans.

Panczyszyn and Paul Paolisso give the Orange talent at quarterback but Paolisso may be a questionmark due to an injury. The three best receivers also return and the entire offensive line is back, which should afford the passers plenty of protection.

The Orange defense was fourth in the nation last year (right behind Penn State) but six starters have departed. Gubitosa is

1968 RECORD — 6.4 TOP PLAYERS — MG Ray DeLov Gubitosa, George

TOP FLOX Jakowenko VS PSU — October 18 at Syracuse 1968 SCORE — Penn State 30, Syracuse 12. (State leads series 21-20-5).

an All-America prospect at defensive end and Ray White could also win All-American consideration at middle guard.

Schwartzwalder is noted for developing great running backs

Jim Brown, Jim Nance, Floyd Little and Larry Czonka, to name a few — and this year's running attack could be up to par with the past. Add the capable passing attack and the Orange offense should be one of the best in the country. But things looked good last year and Syracuse tailed off to its worst record in six years.

If Schwartzwalder can beef up the defense he has a good chance to get his team into a bowl game, since Penn State and Kansas appear to be the only strong teams on the schedule. While everyone else is fumbling around trying to pronounce the names of the players, the Orange could be sneaking, or driving, or powering part to eight or nine wins.

Mountaineer Record Setter

OSCAR PATRICK finished 20th in the nation last year in pass receiving. The 6-4, 212-pound West Virginia senior is expected to improve on that position this season as the Mountaineers boast a wide open offensive team.

Memories Move 'Pack the 'Pack, 13-8. For two years now the drawlin', rebel-flag flyin', fried chicken

'The Twilight Zone' brought to life in Beaver Stadium, Pa. A quarterback hunched over the center, his team behind 13-6 wih the ball a vard away from the enemy end zone and less than a minute remaining in a vitally important football

A crowd of more than 47,000 simultaneously chewed their nails right back to the elbows and screamed wildly. The fullback plunged into the line but Penn State's defenders rose up and stopped him and super soph linebackers Denny Onkotz and Jim Kates slammed the ball carrier into the turf - short of the

The scene took place two autumns past, but it's all that anyone in North Carolina remembers about football. The Wolfpack arrived in Pennsylvania with its bags packed to go to the prestigious Sugar Bowl. With an 8-0 record and a third place ranking in all the national polls, NC State looked like a sure bet for the postseason festivities. All it had to do was subdue Penn State.

But Onkotz had one of the first truly great days in what has become an Alleatin' NC State fans have thirsted for revenge. And this season gives them good reason to believe that "next year" is

Seek Revenge for '67

Coach Earle Edwards red-shirted his entire 1967 freshman team so plenty of seasoned replacements are available for the few holes left from last year's Atlantic Coast Conference champions.

The Wolfpack defense has led the con-

ference in each of the last three years and has nine starters returning from last season's formidable unit. Giant (6-5, 250) defensive tackle Ron Carpenter, an NEA All-American a year ago, and safety Jack Whitley are both outstanding performers.

and cornerback. By the time NC State meets the Lions in the season's final encounter, those holes will undoubtedly be plugged with top-flight men.

One . an holds the key to the offense junior quarterback Darrell Moody. His natural ability is not questioned but some observers wonder if he can run the team well enough to put his team into the national picture.

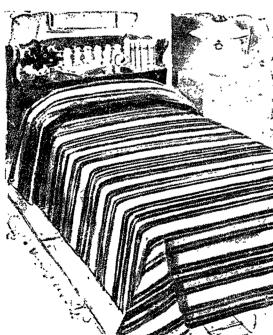

Behind Moody in the backfield is the quickest group of running backs the Pack has had in years. The leader is tailback Charlie Bowers who gained 706 yards for seven touchdowns a year ago.

North Carolina State will play the most ambitious schedule in its history, with Miami, Houston and Florida State dotting the card. But one respected national magazine has tabbed the Wolfpack for 12th place in the final rankings so apparently someone thinks Edwards has a few aces up his talented sleeve. The Nov. 28 contest in Raleigh should be a tingling season finale for Penn State. If the Lions are to lose a game in 1969 this one could

Manhattan, Kansas
1968 SCORE — PSU 25, Kansas
State 9

State 9
(Penn State leads series 1-0)

Last season the Wildcats went into the locker room at halftime beating Penn State, 9-7. But with as many as 10 sophomores in the offensive unit at times Kansas State just couldn't score any more. It wound up a 25-9 romp for the Lions.

No one takes the Wildcats for granted anymore however, and State is in for a rough game at Manhattan.

Herron teamed with Dickey on a 57 yard touchdown pass and people were wondering if the 5-7 wingback was the fastest thing alive. The reason he got to the end zone untouched was that no one saw him. He snared 38 passes for 592 yards last year.

The offensive line was not of the best calibre last year but returns intact and may learn

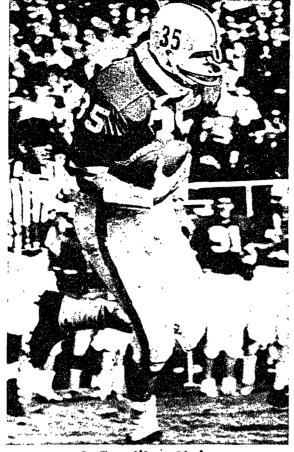

The Kansas State defense lists nine returning staters with all the linebackers and the entire secondary back from last year.

There is one outstanding player on the defensive line—end Manuel Barrera. Gibson rates him a true All-American prospect. John Stucky was a second team all-Big Eight middle guard last season.

With a tough, dedicated (he even wears KSU purple shirts) coach and a host of returnecs, Penn State can't afford to take the Wildcats too lightly.

Lynn Dickey didn't start at

THOSE WHO have watched Penn State football over the last two years will recall this scene - linebacker Denny Onkotz running for the enemy end zone with an intercepted pass. He's scored two to win as many

The Forgotten Bobcats

That Other Ohio Team

Sorry sports fans, Athens, Ohio is not related to the Columbus of the same state and of current movie fame. The Ohio on Penn State's schedule is not the same as Ohio State, national champion in 1968. People in Pennsylvania who got excited when they noticed that State's schedule included Ohio and immediately imagined a battle for the No. 1 spot will be disappointed. The Ohio Bobcats are not related to the champion Ohio State Buckeyes.

What the Bobcats are is a very good team with one of the best quarterbacks in America and they will hardly be a pushover for anyone, including Penn State.

After finishing its regular season with a 10-0 mark Ohio was voted 20th in the national polls, a ranking which everyone connected with the Mid-American conference considered grossly insulting. This year the Bobcats will play with some tougher

1968 RECORD - 10-0

TOP PLAERS - QB Cleve Bryant, OE Todd Snyder, HB Dave LeVeck

VSU PSU - October 25 at University Park 1968 SCORE - (no game. Penn State leads series 1-0).

company in an effort to prove their worth. It will also cost them undefeated status.

Ohio's best player, quarterback Cleve Bryant, has already proven his worth and has established himself as one of the best passers anywhere. He was ninth nationally in total offense last fall and led the Bobcats to fith place in scoring. Bryant has completed 166 passes in two seasons and has scored 43 touchdowns while gaining 1,158 yards rushing. Those last two figures would make any running back happy, but remember, this guy is also one of the quickest passers around. He's quite an offense all by himself.

Sneak preview of next year's Volkswagen sedan

If you just bought this year's VW sedan, congratulations.

Next year nobody will know you're not

driving next year's VW sedan. Because next year's beetle will look like this year's beetle. (What else?) And every

other beetle we've ever made. So it will be just as hard to tell a 20-year-old VW from a brand new VW.

Buying a car that doesn't go out of style has still another benefit: you don't take a beating when you sell it.

A VW depreciates very slowly. But even though next year's Volkswagen won't be different, it will be different. We've made some nice improvements. As

usual. (Over 2200 since 1949.) So in next year's VW you can look forward to a new ---- and a bigger ----

and a different— Well, you wouldn't want us to give away all our little secrets, would you? What kind of sneaky preview would that be?

Mierley Volkswagen, Inc. 1500 North Atherton Street State College, Pa. Phone 238-1500

End Todd Snyder is Bryant's favorite target and has gathered in 79 passes in two seasons. His speed and moves make him a definite pro football prospect.

air, either, All-MAC halfback Dave LeVeck also returns, Fast and agile, LeVeck gained 850 yards a season ago and he will be joined by some talented sophomores, also speedy. In fact, speed seems to be the trademark of this team - coach Bill Hess rates the 1969 Bobcats his fastest ever.

Other capable returnees on offense include flanker Harvey Mitchell and interior linemen Mike Kaydo and Carson Crow.

The Bobcats aren't nearly as good on defense, however, and a team that can pass will probably win. Opponents completed better than 50 per cent of their passes against Ohio in 1968 and it finally caught up to the Bobcats in the Tangerine Bowl where Richmond won a franic passing duel, 49-42.

Early in the season. Ohio would probably have a chance to spring an upset on the Lions. But by the time the sixth game of the season rolls around the State offense will have settled down and shouldn't have too much trouble. Goodbye, Columbus, er. Athens. JACKHARPERJACKHARPERJACKHAFJACKHARPERJACKHARPERJACKHARPERJACKHARPERJACKHARPERJACKHARPER

Not all of the Bobcat's high-geared offense goes through the

The 'Konkrete' All-American

Onkotz Leads Defense

They call them the "Konkrete Kids" at Northampton High School because of their location in the heart of Pennsylvania's cement belt.

But for the past two years, Denny Onkotz has given football opponents

another reason. For running into the All-America linebacker from Northampton is like running into a concrete wall. You either stop dead or bounce back, but you never go forward

"He's one of the greatest linebackers Penn State has ever had," says Coach Joe Paterno in describing the one-time high school quarterback.

"He's aggressive and a sure-hitter. That was the first thing we saw about him, his ability to hit."

From his very first game as a Nittany Lion — back in 1966 as a member of the freshman team — it became readily apparent Denny Onkotz was destined for future stardom.

Great Opener

"We were playing West Virginia," recalls freshman coach Earl Bruce. "The first time they carried the ball. Denny hit them for a five-yard loss. On second down, he tackled them for a 10-yard loss. And on, third down, he intercepted a pass."

It's been that way ever since cultimating last year in Onkontz' selection as an All-American linebacker by Associated Press United Press International, Football Writers (Look). Detroit Football News, New York Daily News and Central Press Association.

Combining his hard-nosed tackling with alert pass defense and a "go-for-broke" style of running, Onkotz has become the sparkplug of the Nittany Lion "Rover Boys"—that group of defensive linebackers and secondary who played a vital role in Penn State's first undefeated, untied season in 21 years.

Scored TD

Onkotz alone accounted for 41 tac-kles, 31 assists, and four pass intercep-tions, including one which he returned nine yards for a fouchdown to put the West Virginia game out of reach. He also led the team in punt returns with 18 for 208 yards or an average of 11.6 per carry.

But even as a quarterback in high school, running from a short punt formation, detense was his first love, linebacker his only position.

"I hated offense. I played it because the coach wanted me to," he says "I enjoy running back punts and making interceptions, but I'd rather hit than be but."

Unlike most linemen who pulverize enemy ball carriers with their weight the 6-2, 215 pound Onkotz says he runs through his opponents.

"I think that's the only way I can describe it. My lack of weight means I have to depend on my speed to knock a ball carrier down, so I run right at him. With Mike Reid and Steve Smear at defensive tackles I seldom get blocked. Our defense is set up for the linebackers to make a lot of tackles."

Big Play

Onkotz also seems to have a knack for coming up with the big play when it counts most. Last year's West Virgina game was one example. The North Carolina State game two years ago was another He intercepted a pass and raced another rie intercepted a pass and faced of yards for what proved to be the winning touchdown and in the last seconds teammed with Jim Kates to make a goal line tackle that stopped the Wolfpack from scoring.

After last year's West Virginia game, coach Jim Carlen told reporters he had geared his entire offense to avoiding Onkotz. "but overywhere we went, he was there too."

Small wonder he is a near unanimous choice to repeat as an All-American in

BC Eagles Show Improvement **Behind Quick-Throwing Harris**

If the Boston College football brochure is any indication, the Eagles are in trouble. Their scouts must be bringing in some poor information about the opposing teams because Penn State's top player was listed as linebacker Dennis Onhanty. He was also listed as Dennis Onkontz, There has to be some kind of communications gap there and if it carries over into performance, it might be a long year in Chestnut Hill. Fortunately for BC, the hrochure doesn't play the games. the games.

If the returning players can repeat last year's per-formances, the Eagles may

Coach Makes No Predictions

Panthers Show Potential—Again

Last year a blare of optimism emitted from the Pitt campus as the football season began. The Oakland area of Pittsburgh was buzzing of "the year the Panther begins to growl." But a tough schedule turned the growl to a gentle purr and Pitt ended the year with its third consevutive 1-9 record.

This season a new sound is heard from the direction of the Cathedral of Learning. Instead of loud optimism, it is a sort of quiet determination. Gone from the scene is colorful super-recruiter Dave Hart, the coach during last year's tragedy. In his place is the hardworking Carl DePasqua. "If won't be making any predictions," the new coach said wisely, "but I will promise you this. Pitt will know how to block and tackle. We're going to return to Western Pennsylvania style football—tough, hard-nosed football."

1:30 EDT

1:30 EDT

1:30 EST

even for determined coaches.

DePasqua has 17 returning starters from last year's squad, but how good are returnees from a 1-9 team? Pitt is especially vulnerable at the quarterback position. Last year's starter, Dave Havern, has been medically red-shirted with mononucleosis, after setting three school records last year with his throws.

Frank Gustine, a senior who lived through a starting season two years ago seems to have an early edge in the signal-calling job. He has gained this honor by default however, as he is the only injury-free quarterback.

the only injury-free quarterback.

Jim Friedl, a transfer student from The Citadel, and Chuck Winters may win the job from Gustine if they can shake injuries.

The Panthers have a potential great in sophomore linebacker Ralph Cindrich (6-1, 220). After making 17 unassisted tackles in the opening game last year, Cindrich suffered an ankle injury and had to sit out the rest of theseason. He should be a top candidate for All-East honors.

Cindrich is expected to lead a defense that can do nothing but improve. Last year the Panthers gave up a record 393 points and allowed opposing runners 4.1 yards per carry.

The job may be made easier by the play of two defensive ends. Sophomore Bill Donovan (6-1, 230) has been the most pleasant surprise of training camp, but the need for offensive linemen may convince DePasqua to change the youngster to the offense. Lloyd Weston (6-1, 234)

aggressive defensive end.
Charles Hall (6-1, 200) anchors a defensive backfield that has played a lot of football together. Geoff Brown, Jeff Barr, George Pribish, Dave Dibbley and Bryant Salter are all back from last year and give the Panthers a good nucleus in the secondary.

The offense will be sparked by a runner who has compiled a pretty good record despite playing with a loser. Junior Denny Ferris (6-1, 197) gained almost four yards per carry last year, despite Pitt's almost non-existent front line. DePasqua intends to run more this season and Ferris is a major part of his plans.

Expected to return to his fullback position is another junior, Tony Esposito (6-1, 226). His performances were inconsistent last year but Pitt expects him to live up to his full potential

this year.

If Joe McCain is healthy, he will give Pitt an experienced wingback with good moves. The senior has started two seasons and has received 59 passes for the Panthers.

DePasses for the Faithers.

DePasses for the Faithers.

DePasses when asked about the future of this team. "It is impossible for me to say how our boys will react to game pressures," he said. "I've only seen them against each other, so I really can't evaluate our strengths and weaknesses."

If DePasqua's team can avoid the frustration that killed last year's squad when other teams ran up huge scores, by the end of the season he may begin to see the first Pitt team in four years with more strengths than weaknesses.

Terps Face Rebuilding

With Porous Defense Penn State will be facing a largely unknown opponent in Maryland. The Terrapins have hired a successful high school coach in Roy Lester to attempt to rebuild Maryland football,

which is facing a crisis. Coach Bob Ward resigned last spring after a player rebellion where many Terps refused to play for him again.

Lester faces a rough task and admits that his

record. He has a good nucleus of 35 returning lettermen, but the coach still feels that he will not be as deep as he would like to be.

To run the offense, Lester has quarterback Dennis O'Hara, last year's backup man. He is considered one of the best runners on the team,

1968 RECORD — 2-8 TOP PLAYERS — QB Dennis O'Hara QT TOP PLATERS — S. Ralph Sonntag
VS. PSU — November 15 at University Park
1968 SCORE — Penn State 57, Maryland 15
(Penn State leads series 14-1-0)

but not an impressive passer.

The interior line is the strongest portion of the Terps' attack. Fxperienced and big, they play hard-hitting football. Captain Ralph Sonntag (245) and Rich Slaninka (261) play the tackles, while Bill Meister (237) and Pat Burke (221) are the guards. Either Jim Stull or (232)

or Mike Stubljar (193) will play the center

or Mike Studies (1997)
position.
The defensive strength of the Terps is even more questionable than the offensive power.
Lester has been moving players around like chess pieces trying to find the right

defensive alignment.

The secondary is the only place Lester has any reliable strength. Backs Kenny Dutton. Wally Slalnaker, and Bob Colbert are a trio of fine performers.

Maryland needs a lot of work if they are to

better last year's team. Either Al Thomas or John King has to develop at the tailback position, while two sophomores, Tom Miller and Scott Shank, must be relied upon at

Track star Roland Merritt is given a good chance to succeed at split end, but he must prove that he is durable enough to play football.

ball.

Lester's biggest problem will be in his defensive line and linebacker corps. No outstanding player has developed at either of these positions.

Maryland's new coach who is not used to losing, but this season he may just have to learn to live with it. Even he admits the future of the Terps is not too bright. "We're not overly enthusiastic," he said of the coming season.

It looks as chough it could be a long season for Lester and his team, and any victory gained would be unexpected.

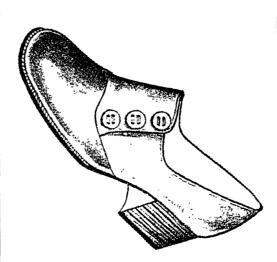

Three for the TD

WHEN TED KAWALICK graduated he left a huge gap at the end of Penn State's line. Now three players are dueling for a chance at the departed All-American's tight end position. Left-to-right— junior Jim McCord, soph Wayne Munson and senior Pete Johnson, the probable starter. See Wednesday's Collegian for a report on Kawalick performance and progress with the NFL

'Talking is Best Activism'

Hosler Advocates Student Voice

notations. To some people, it means campus demonstrations and riots. To others, student activism connotes students speaking out, bringing about change through dialogue and

discussions.

Charles L. Hoster, dean of the College of Earth and Mineral Sciences, thinks of student activism as the latter. He advocates student activism as one of the best hopes for bringing

activism as one of the best hopes for bringing about change in a university.

"I know that today's students want to talk and be heard," Hosler said, "but the students must make more of an effort." Hosler explained that if one professor gives a student the "cold shoulder", he should not be discouraged but he should "speak out."

Student-Faculty 'Gap'

According to Hosler, the gap between students and faculty occurs in the classroom. "The idea of establishing a formal student-faculty committee for proper exchange of ideas exhibits a gap in itself," Hosler said. He added that discussion should be on an informal basis. "The breakdown has to occur in the classroom. The professor must relate his subject matter to the every day world of the student in order to make it more meaningful to him," Hosler said. "A student should ask questions and open his mouth in a classroom. There is no reason why

mouth in a classroom. There is no reason why he should sit there like a bump on a log," Hosler added. He said that if a professor does

complain. A student should talk to his pro-fessors outside the classroom and try to com-municate with him on an informal level."

"I think students have the power to make "I think students have the power to make this University a really great one by continuing to initiate such programs as Colloquy and the Black Arts Festival," Hosler said, "but they must learn to express their opinions and beliefs at all times."

Another cause for the gap between students and faculty, according to Hosler, is caused by the students who think that imaginary barriers exist between them and the faculty. He said discussion and exchange should be a constant thing. "The administration is not lostile toward discussion or afraid of doing things differently as so many students imagine." Hosler said.

Students or Numbers? "If students are not willing to basically change the system and reorient it, then most certainly will students become more like numbers in a great accounting system, tabulating courses, credits, grades and fee payments until educational policies are finally dictated by convenience in tabulating and accounting." Hosler

Demonstrations on college campuses that call

epidemic" in universities, according to most. He asserted that campus unrest could not have occurred without a great deal of "underlying and latent discontent."

"There are serious things wrong with the procedures in higher education in America and the University in particular," Hosler said. "Although the president of this University may "Although the president of this University may not have been the first to see the need for change, and although it may not have made the headlines when he did, I can assure you he was there early, and at least ten years ago tried to get some change underway." Although progress has been made and, by academic standards, the liberalization of the University's programs has been rapid, according to Hosler, "it is not rapid enough in a rapidly changing world."

world."
The University should stop their practice of loco parentis, Hosler said. He explained that responsible behavior starts when a human being is given the responsibility for his behavior. "But the advice and counsel of the faculty in personal as well as academic matters, should always be available and used by students to a greater extent than it is now," Hosler said.

Hosler said.

Since 1956, Hosler has been visiting and lecturing at many of the black universities in the South. He helped to establish a masters program in earth sciences at Vurginia State College. "We supplemented their faculty resources where they did not have specialists," Hosler said.

said.

Education — Racial Solution

Hosler added that one solution to the racial problems is to improve the education offered to and for blacks.

"Integration is an all or nothing situation," he said. "If you are going to help the blacks, you don't do it half heartily.

"I guess I'm like 'a black advocate.' You have to help the blacks raise their level of self confidence." he continued.

Hosler explained that a black person has to have confidence before he enters a white com-

they are inferior.

Once the black person has made it in his own Once the black person has made it in his own community, he will be more able to face the "cultural shock" when he enters a white community, Hosler said. "I'm in great sympathy with the attempts of the blacks to establish themselves within their own community." he added. "They can show other people they are as good as anyone else."

Commenting on the proposal of establishing a special five-year educational program for financially disadvantaged students, Hosler said such a program sounds appropriate for only a

such a program sounds appropriate for only a limited number of students. He said that one really cannot make up for a life time of learning in one year.

Different Environments

"If a child is in a culturally different environment, he doesn't have the frames of reference on which to build his foundations," Hosler said. He explained that "science and math makes no constant a distributional child. sense to a disadvantaged child. A child who comes from such an environment has to be almost exceptional to overcome these han-

dicaps."

These students cannot be admitted to a university and be expected to do the work, Hosler said. "It just doesn't work that way," he

added.

One solution to the needs of a black student according to Hosler is to begin giving him a top notch education when he is very young. "You have to start when the child is small and enrich his environment," he avalained "It is

have to start when the child is small and enrich his environment." he explained. "It is necessary to knock yourself out developing special education programs for these people. "Perhaps, when we get more black students at the University, a black male will be able to get a date with a black girl without having to look for one for six months." Hosler said.

Hosler, a native of Honeybrook, Pa., received his bachelor of science, masters and doctor degrees from the University. He also studied at Cornell, MIT and Bucknell.

Black Prisoner Speaks Against White Society

Frank W. Burrell is black. He is presently in the Muskegon County Jail, Muskegon, Michigan awaiting sentencing for armed robbery.

Recently Burrell spoke out against racism in this country. But you didn't see him on the newsreels, hear him on the hourly news or read that him in the newspaper.

newsreels, hear him on the hourly news or read about him in the newspaper.

Burrell wrote a letter to The Daily Collegian voicing his dissatisfaction with the current racial situation.

Addressing the letter to "Your Honor," Burrell said, "I am more thoroughly convinced that I have never, nor will I, or my sons' sons ever, receive justice in this white infested society.

Rather Be Deported

"I should rather have my nominal citizenship revoked and be deported than be remanded to prison where there already is a disproportionate number of blacks," Burrell said.

Burrell continued to say that as a personal representative of his race he was "destitute in a hostile society well on its way to world dominance. I was proscribed, lynched, roped, robbed, persecuted and exploited. I was denied decent jobs and decent housing; taught to hate and despise myself; forced to live like an outcasted mongrel dog.

and despise myself; forced to live like an outcasted mongrel dog.
"Yet you, Your Honor, heir-apparent
perpetuator representative of white society,"
Burrell said, "sit callously before me in the
seat of judgement, divested of any feelings of
guilt, quick to shout, But I didn't enslave
them! I didn't lynch them! I didn't rope them!
True, But on the other hand, and just as important, nor did you take this country from
the Indians, but you possess it; nor did you
tight for independence, but you claim it; nor
did you spawn Jim Crow, but you enjoy it."
Burrell criticized white society for judging

his race by white moral and economic standards which it "never permitted me to achieve.
"I urge you to deport me and rid yourself of this black man who shall forever refuse to be your boy, nigger." Burrell said.

So who is Frank W. Burrell? Some may say he is another black man speaking out against white injustice. Others may ignore him entirely. Muskegon County Sheriff Harry Pennington considers Burrell "another kook." Pennington considers Burrell "another kook." Pennington claims that Burrell's letter is a form letter copied from a book. He told The Collegian that Burrell has sent copies of the letter to the President of the United States, the governor of Michigan and the state attorney general. He is now sending them to all the colleges and universities in the country.

"As many as 25 letters a day go out from him and we keep sending them out." Pennington said. "He gives us no trouble. This is the way he spends his time and we don't bother him."

Three to One Ratio

the way he spends his time and we don't bother him."

Three to One Ratio

Penningion also claimed that the jail does not contain a disproportionate number of black inmates. "The ratio is three whites to one black," he added.

Although Burrell has sent his letters to government officials and college campuses, The Collegian's inquiry was the first, according to Pennington. He said that the attorney general's office may check into the matter but he would "welcome an investigation."

Burrell may have copied the letter but through it he voiced his dissatisfaction with society. He may not make the headlines but he writes the letters hoping that someone, somewhere will get the idea that this land of plenty is not famous for its equal distribution of milk and honey.

Science Writer Joins University To Teach Tech Writing Course

Mrs. Lin Root, famed book on the biological cost of science writer, has accepted an appointment as distinguished visiting professor of English Composition for the Fall Term. She will teach English 418, a writing course directed primarily to graduate and un-dergraduate students in the sciences. She will participate in the new writing program established by the Department of English.

A scientist as well as a science writer, Mrs. Root has held appointments as a bacteriologist and biochemist and was associate in special problems in William Beebe's Arcturus Oceanographic Expedition to the Galapagos Islands and the Sargasso Sea.

Her monographs have been published by the Agricultural Experiment Station of Louisiana and in the Proceedings of the Society of Experimental Biology and Medicine, the Journal of Metabolic Research, the Archives of Neurology and Psychiatry, and the American Journal of Medical Sciences. Her monographs have been

Her writing for general circulation magazines ranges from political and economic surveys to celebrity profiles, and appears in such publications as Fortune, Reader's Digest, and Cosmopolitan. She is best known for her popular articles on stomic energy research and on atomic energy research and on medicine. She is now writing a

Mrs. Root is also the author of a novel and a series of motion picture scenarios for Paramount and Columbia Pictures, and she is co-author of play which ran for eight months on Broadway. She has been Science and Medicine Editor at Time and is currently one of the officers of the Overseas Press Club.

Mrs. Root said that unique nature of the writing program now being offered at the University induced her to put aside other commitments and to investigate the role of tracher.

She affirmed the central premise of the program: that ex cellence in one form of writing, fiction or nonfiction, creative or technical, requires competence in all forms of writing. Only the individual writing task, she said, can define what it needs: the writer must have at his command all the effects writing possesses. cellence in one form of writing

writing possesses.

The course she will teach this Fall Term, English 418, is titled "Advanced Technical Writing and Editing." Mrs. Root will examine the principles common to all writing and their adaptation to each writing problem. She will discuss the relationship of the apparently disparate modes. Students will investigate such forms as scientific reports, articles. monographs. and disser-

tations. The course includes all stages in preparing and editing professional papers. the Bikini Atoll experiment.

Hopes Fade For Getting Moon Rocks

Although some hope remains for receipt of moon material for anlysis here, the materials research laboratory has probably reached the end of its participation in of its participation in NASA research on lunar data resulting from the Apollo 11 landing.

Gerald Johnson, pro-fessor of computer science, received a letter this week in appreciation of his work on computer analysis of moon data which was sent directly from the NASA research center in Huston to the University laboratory.

Darkens American Image He said he is greatly in favor of the University's attempts to increase black enrollment, and expressed surprise when told that last year, out of 25,000 stu-By RHONDA BLANK Collegian Staff Writer "Americans are hurting this country," said Maj. Clifford M c D u f f y , newly-appointed assistant professor of military science, assigned to the Army ROTC instructor group here. dents on campus, only about 300 were blacks.

McDuffy, who said he has encountered racial prejudice here as well as abroad, said he does not really understand it. McDuffy, one of two black officers in the University's Army ROTC program, was referring to the racial prejudice in this country and its effect on our image abroad. "A person has to learn to hate, and it's a waste of time. There is too much to do in life to be hung up on little things."

As a black, McDuffy said he does not "feel one way or the other" about his appointment, but as a serviceman, "being chosen tells me something about my character and abilities."

Referring to the Army's Special Oath of Confidence, McDulfy said he felt it would be unethical to comment on President Referred M. Nixon's breedless Referred M. Nixon's He explained, "For any military personnel to be selected for a position such as this, he must be well qualified." "The President is advised by the best military minds in the country, and is more qualified than I am to say how it should be done." he expalined, adding he feels we do have a commitment to the people of South Vietnam.

McDuffy said he is here to "represent the armed forces", and not any particular racial group. "I can't afford to see color," he added. "I want to judge stu-dents equally and be fair to all of them."

Asked about black students

Asked about black students demonstrating for better educational opportunities, McDuffy replied, "If a person isn't satisfied with something, he should let someone know about it. Everyone should receive the basic inheritance that is his in a wealthy country." that is his in a wealthy country

McDuffy expressed concern over the image of the military as "warmongers and killers of women and children. We are doing what we think is right."

McDuffy, who served for one year in Vietnam, said he is "glad to see troops withdrawn. Man should not have to fight a war to exist."

handling of the war.

McDuffy maintained that the nation's military contains some of the most intelligent and skilled personnel in the

Buglers Have Holiday At Football Half-time

Buglers will have a ball at the 20th annual Band Day Saturday.

A total of 930 coronet and trumpet players will blend their instruments into a gigantic rendition of "Bugler's Holiday" by Leroy Anderson, arranged by Herbert W. Fred.

"It all started last year," said James W. Dunlop, conductor of the Penn State Blue Band and in charge of Band Day, when 400 trombonists were heard in "76 Trombones."

Featured as the halftime program of the Penn State—Colorado game, the sixty high school bands on the field will also play "America, the Beautiful," "His Honor." "Big Blue," "Battle Hymn of the Republic" and the Penn State "Alma Mater."

The program involved more than 6,000 bandsmen, including 4,909 instrumentalists: 410 in color guards and 765 majorettes. They will travel to the campus from all parts of the state in 171 buses and cars with 19 trucks for instruments.

Rough Road Ahead Seen For Pennsylvania Economy

Cuts in the 1969-70 University budget re-quest to the State General Assembly are being reflected by a cooling-off economy across the commonwealth.

While more time is required to accurately read the signals, business analysts at the University note that industrial output generally is slackening; unemployment is on the rise after a period of high employment; and there was a sharp drop in the volume of public works and utility contracts in the state, contrary to the national picture.

They also report that steel mills in Pennsylvania this summer turned out the smallest monthly production since February. July production totalled 2.6 million tons, or an annual rate of 30.2 million tons. This is the lowest rate for any month this year, and us noted that Pennsylvania output as a percentage of total production in the United States has been shrinking for four months.

At the same time, employment in primary metals in Pennsylvania has risen steadily all this year and now is as good as or better than at any time in nearly three years. Moreover, the average week worked by production employees in primary metals has been lengthening. This combination of circumstances suggests that there may be come deterioration in the competitive position of Pennsylvania

The report, published in the Pennsylvania Business Survey, notes that the number of fac-tory man-hours worked weekly this summer did not match the seasonal pattern. This was

true also of the number of kilowatt hours of electricity sold at industrial rates.

Unemployment, after several months at a seasonally adjusted rate of less than 3 per cent of the civilian labor force, amounted to 31 per cent in July and it had been on the rise for two successive months from a record low point in

In Pennsylvania, awards for construction of commercial, in dustrial, and other nonresidential buildings have gained in dollar volume beyond the usual summer patterns and have moved up to one of the best levels recorded for the State. Nationally, awards for this kind of construction have leveled off at a point much lower than had been recorded earlier the sing of construction have leveled off at a point much lower than had been reached earlier this year and this effect has been attributed to a lack of credit. Earlier, what credit funds had been available were used to finance this kind of construction rather than the less profitable onefamily mortgages, but tight credit now appears

also to be affecting commercial construction.

Contract awards for residential construction in the State also remain at a comparatively high level although in July they failed to meet seasonal expectations for the first

month since early spring.

The turndown was mild compared to the sharp gains above usual scasonal patterns made in the second quarter of the year; and activity in this building sector remains extremely good compared to all but four or five provious months near a period of source learns. previous months over a period of several years. Nationally, the volume of residential contract Nationally. awards fell well below its earlier 1969 high

'America's Forgotten Coin'

100 Make A Dollar

By The Associated Press

Be it ever so humble, the pumy wasn't always puny, even though the new director of the Mint called it America's forgotten coin, even though a Salt Lake City father admitted ruefully that "my kid won't even look at one."

"A penny was quite an integral part of childhood when I was a kid." added Dan Valentine, a Salt Lake City author and newspaper columnist. "Now it's parking meter fodder.

"Mostly, I remember gambling, pitching pennies, odd man, and buying mints from a little old lady at the candy store. It would take hours to make the selections but if you got one with a pink center, you won a big box of candy," he said.

A Dollars Worth

"I could buy as much candy with a penny as you could for a whole dollar today," recalled John E. Miles, 86, former governor of New Mexico. "I can remember a lo of children, when they had a penny, why, gosh, they thought they were

Mary T. Brooks, new director of the Mint, said the Mint is

Mary T. Brooks, new director of the Mint, said the Mint is spending too much of its time making pennies. It was she who called them the 'forgotten American coin."

But then there is John D. Rockefeller IV, 32, West Virginia secretary of state, and member of a family that had no real need to pinch pennies.

"I flatly deny that I have forgotten the American penny," he declared. "Some of my best friends are pennies.

15 Cents Allowance
"As a child, my allowance was 15 cents a week. Five went for savings — war bonds — five for charity and five for spending."

Author Harry Golden, who wrote the nostalgic "Two Cents Plain." reminisced, "When we came home from school every day, our mother gave us a penny. It was a great treat because there were a host of things you could buy for it. You could buy candy, notebooks, pencils. You could buy many things with a penny, but today it's useless.

penny, but today it's useless.
"It's the poor man's coin. My mother would walk 10

'Walker Lab' Exhibit On Display in Library

"Walker Lab, 1890-1969," is the title of a new exhibit in 10th Pattee Library.

The display depicts the history of Walker Lab from its beginning through its recent demolition. Included among the pictorial material are color photographs taken by Wendell MacKee last fall. They offer a quiet contrast to the black and white photographs showing the progress of the wrecker's ball, earlier this summer.

Pugh Memorial Museum which was originally housed in Walker Lab. The articles from the museum were later housed in Carnegie while it was the library, and in more recent years have been located partly in the Penn State Collection in Pattee.

McKeesport Growing, Men Outnumber Coeds

Over 800 students will attend orientation programs at the McKeesport Campus Tuesday, Wednesday and Thursday.

This is an increase of almost 300 students over the number

This is an increase of almost 300 students over the number enrolled Spring term.

Included in the fall enrollment are 278 returning sophomores, transfers from other schools and students being readmitted. Incoming freshmen number 520.

The orientation schedule will include placement examinations in English, French, German and chemistry; a physical examination for freshmen only; a meeting with individual academic advisers, library orientation, student activity information sessions, and registration for the Fall Term.

Classes will begin Friday, two days earlier than originally scheduled, to enable a longer vacation at Thanksgiving.

Because of the nature of the three associate degree curriculums offered at McKeesport, males will dominate the programs. Only two freshmen coeds will be enrolled this term.

A better balance exists in the baccalaureate curriculum, but the coed will be outnumbered almost 4 to 1. Males number 497 to 121 coeds.

blocks to buy butter a penny cheaper than at another place. Pennics were a big thing among the poor. . .

"I knew a woman on the East Side . . . That woman sold sweet potatoes for a penny apiece. And from those pennies she sent two sons through college. One is a doctor and the other is a lawyer. But you can't do that today with pennies." Sales Tax

Sales Tax

"The new director of the Mint must have forgotten the sales tax when she called the penny the 'forgotten American coin,' " said Eleanor Mary Ferguson of New York, a former foreign correspondent. "I find I have to carry a purse-load of them when I go shopping."

Do I remember the penny," said Ed C. Johnson, former U.S. Senator from Colorado. "It was a collector's coin for the little 'tellow."

U.S. Senator from Colorado. "It was a conector's coin for the little !ellow."

Now it's a collector's coin for the big fellow."

Norman Stack of New York, partner in one of the nation's oldest and largest coin dealing firms, said the 1816 "Flying Eagle" cent is worth more than \$1.000 to a collector.

"Other valuable pennies," said Stack, "are the 1877 cent at about \$76, the 1909 Lincoln cent with the engraver's initials "VDB" and the San Francisco mint mark 'S'. This one is worth around \$100. The 1931 cent brings in about \$20."

Drinking Problem \$6,000 Worth of Golf Goods **Explored in Book**

A book which can help communities cope with their problems of alcoholisms has been released under sponsorship of the University Center for Law Enforcement and Corrections.

Enforcement and Corrections.
Edited by William H.
Parsonage, assistant professor
of law enforcement and corrections. College of Human
Development, the 129-page
volume is an account of the
proceedings of a workshop on
"Alcohol Use: A Look at Basic
Issues held here July 29 to
Aug. 2.

The purpose of the workshop was to prepare participants to return to their communities better able to influence improved programming for the solution of alcohol problems.

Of particular interest in the

book is a section on "Perceptions" of the 57 participants, drawn from a questionaire which they answered before and, again, after the conference. As analyzed by Parsonage, who was the workshop chairman, so me marked changes in perceptions took place as a result of the discussions.

For example, the number of participants who saw "the use of volunteers to work with alcoholics" as "very helpful" increased significantly by the end of the conference as did the concern that community "detoxification centers be established to handle drunkenness offenders" to replace ness offenders" to replace police stations as initial deten-

Smokey the Bear 'Out' Says Agriculture Dean

How you gonna keep 'em down on the farm after they've seen Penn State?

According to Wayne K. Murphy, acting dean of resident education for the College of Agriculture, that is nothing to worry about. As the image of agriculture is changing, so is the image of the College of Agriculture.

"That farm-oriented image is not correct. Neither is there room for the Smokey the Bear syndrome," said Murphy. He would prefer thinking of the College of Agriculture as preparation for entering the "food and fiber industries." "We apply the physical and biological sciences to production," added Murphy

Murphy.

"Keeping Pace Attitude"

"Agriculture is not dead," he said. "As the industry is expanding, the study of agriculture is being updated."

In keeping with this policy of updating the faculty of the College of Agriculture is "very attune to the students," according to Murphy. Two courses and two majors are presently under consideration in the college's course of studies committee.

According to Murphy, the trend in the college is towards inter-departmental programs. "No one department has the skills or the personnel to cover the fields today," said Murphy. In this way a major in the College of Agriculture will receive broader exposure to related aspects of his field, he claimed.

Enrollment figures reflect the "keeping pace attitude," according to Murphy. Total enrollment, which formerly was down, is now on the increase. On counseling day 141 freshmen intended to enter the College of Agriculture. Of these, roughly 30 per cent were

Congratulating graduates of the University at commencement exercises last Saturday University President Eric A. Walker, paid tribute to the parents and grandparents of the graduates, who, he said, in many cases made it possible for the graduates to receive their degrees.

In his charge to the 1,385 who received diplomas, Walker turned to some facts assembled by Bergen Evans, a radio personality and a college professor and educator.

Walker told the graduates that it was their parents and grandparents who during the past decade accomplished many of the things which we enjoy today.

It was they who increased life expectancy by approximately 50 per cent and cut the

if e expectancy by approximately 50 per cent and cut the working day by a third while they more than doubled per capita output, Walker said.

capita output, Walker said.
"These are the people who have given you a healthier world than they found. And because of this you no longer have to fear epidemics of flu, typhus, diptheria, smallpox, scarlet fever, measles or mumps that they knew in their youth. And the dreaded polio is no longer a medica! factor, while TB is almost unheard of. "Let me remind you that these remarkable people lived

interested in forest science, and a comparable

interested in forest science, and a comparable number were interested in animal science.

Appeal to High Schools

The Agriculture Student Council has initiated a program by which the college hopes to attract more students. With the permission of the high school principals, students in the college will return to their high schools during the winter break to promote careers in agriculture. agriculture.

According to Murphy, this program has been in existence informally for the past two years. This fall an application form for the program will be distributed to all students in the college at registration.

An application for the tutoring program will also be available at registration. A student in the college can offer his services to a fellow student.

Another program instituted this fall is the Agricultural Opportunities Program. According to George A. Van Horn, associate professor of agricultural journalism, eight students have been selected for this "self-help project."

This program is designed to aid students whose chances of entering college are limited because of environmental conditions. Financial need and an above average high school performance, combined with below average scores on the college entrance examinations are the criteria for selection. The number of students chosen will fluctuate each year according to the available finances. available finances.

The College of Agriculture also boasts some new facilities, among them the new Animal Industries building. The new facilities will be featured at an open house from 9:30 until 11:30 a.m. Saturday.

teachers, and at the same time made higher education a very real possibility for millions of youngsters where once it was only the dream of a wealthy few.

few.

"And they made a start, although a late one, in healing the scars of the earth and in fighting pollution and the destruction of our national environment. They set into motion new laws giving conservation new meaning and setting aside land for you and your children to enjoy for generations to come.

"Contemporary man no longer believes that the goals of life are rational, or that meaning or reason can find significance in human existence," Stanley H. Rosen, professor of philosophy, said.

Rosen pointed to science as the classic example of what he means. "Science, billed as the means. "Science, billed as the tool to make man master of nature, now threatens him with extinction, or worse, dehumanization," Rosen said. "Science, political and economic institutions, and the everyday social life once seen as rational consequences of man's rational nature, are now regarded as evidence of the self-destructive character of ambitions without the threat of force, so that the earth will no longer need 'police to enforce the laws, nor armics to prevent some men from trespassing against others. But they made more progress by the sweat of their brows than in any previous era, and don't you forget it. And, if your generations can make as much progress in as many areas as these two generations have, you should be able to solve a good many of the world's remaining ills. self-destructive character of rationality."

It is this lost confidence in reason, and therefore man's lost confidence in himself, Rosen said, that is causing the present revolution in art, science, religion, political ideology and everyday life.

"And unless this confidence is rebuilt, the liberation of desire and passion, today absurdly identified with

with the system, but rather a freedom, will merely enslave loss of confidence in reason.

man to the irrational element man to the irrational element in his nature and hasten his disappearance from the existence he can no longer tolerate or understand," Roser said

The study of nihilism is the study of man and his motives, values and significances, according to Rosen. "It is the values and significances, according to Rosen. "It is the study of oneself. My guiding clue was my own situation as a contemporary man and a possible source of evidence as to the way in which the split between thinking and doing might be overcome."

Nihilism expresses a fundamental dilemma of human nature, and a complete cure for the disease can come in only one of two ways, Rosen added. The first is by making man less than human by preventing him from thinking about his existence. The second is to make him more than human.to resolve all religious and philosophical problems."

"In short," Rosen claims. "there is no cure for mhilism unless we become beasts or gods."

Orientation Program Begins With Meetings

(Continued from page one)

evening. Students in each of the University's 10 colleges will meet with a representative from their college at a separate meeting. Afterwards, an informal faculty-student reception will be held in the Hetzel Union Building.

Religious open houses have been scheduled for Wednesday evening, and Thursday a student art program will be presented. Here students will participate in a "Junk-in." creating a piece of "art" from any odd pieces of scrap they contribute. The Penn State Singers are scheduled to perform in the evening.

contribute. The Penn State Singers are scheduled to perform in the evening.

Friday night has been set aside as Customs Night. Highlight of the evening will be a drawing to award one male student with a date with Linda Nye. Miss Penn State. The winning female will receive a date with football player Mike Reid. The night's festivities will include the traditional freshman-sophomore tug-of-war, a pep rally and a jammy. "The Year of the Lion." a film about the undefeated 1968 Penn State football team, will be shown.
